بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِيْمِ

Assalamualaikum Warahmatullahhi Wabarakatuh dan  
Salam 1 Malaysia.

Alhamdulillah, tahniah dan terima kasih diucapkan kepada seluruh warga Kementerian Pertahanan, sektor awam dan tentera yang telah berjaya melaksanakan agenda Kementerian Pertahanan dengan begitu baik sepanjang tahun 2010.

Tahniah diucapkan di atas kejayaan menerbitkan buku Laporan Tahunan Kementerian Pertahanan 2010 ini.

Sesungguhnya Kementerian Pertahanan pada tahun 2010 telah mencapai beberapa kejayaan walaupun cabaran-cabaran yang mendarang namun sikap bertanggungjawab, jujur, dedikasi dan perkhidmatan efisyen warga MinDef segalanya telah berjaya diharungi.

Assalamualaikum Warahmatullahhi Wabarakatuh dan  
Salam 1 Malaysia.

Alhamdulillah, congratulations and thank you to the entire Ministry of Defence, both the civilian and military sectors who have together successfully carried out the Ministry's agenda during the year 2010.

Congratulations also on the successful publication of the Ministry of Defence 2010 Annual Report.

Indeed, the Ministry of Defence had achieved in the year 2010 several successes, despite the challenges faced. The people of MinDef with their responsible, honest and dedicated attitude and the efficient service overcame all successfully.

Tahun 2010 Kementerian Pertahanan telah berjaya menjayakan Pameran DSA 2010 yang telah diadakan di Pusat Dagangan Dunia Putra(PWTC), Kuala Lumpur mulai 19 hingga 22 April 2010 yang lalu. Pengajuran Program tersebut secara langsung telah menjadikan pengenalan kepada Kementerian Pertahanan di mana pameran tersebut juga turut memperkasakan ekonomi dan imej Negara di arena antarabangsa.

Kementerian Pertahanan telah melancarkan Hari Transformasi MindDef yang memberikan tumpuan terhadap agenda insan melalui program fasa pelaksanaan dalam usahasama keberkesanan bagi pelaksanaan pelan trasformasi. Antara objektif untuk mengukuhkan sistem pencapaian perkhidmatan awam selain meningkatkan kesejahteraan rakyat dan memupuk budaya cemerlang secara langsung memantapkan pengurusan MinDef serta mengukuhkan jati diri setiap warganya.

Selain dari itu, kementerian telah menyambut kapal selam kedua Negara 'KD Tun Razak' sebagai aset terkini Negara merupakan satu kebanggaan serta melakar sejarah kepada kita semua. Aset strategik ini bertujuan untuk menzahirkan dalam menyempurnakan keupayaan pertahanan Negara dalam usaha memantapkan Angkatan Tentera Malaysia sebagai angkatan yang seimbang, kredibel dan berwibawa.

Selain daripada itu, Kementerian Pertahanan telah berjaya memperbaharui Persijilan Amalan Persekuturan Berkualiti 5S untuk tahun kedua. Sesungguhnya kejayaan ini telah meningkatkan nilai tambah kepada pembudayaan budaya kerja berprestasi tinggi di Kementerian Pertahanan.

Di dalam usaha kerajaan untuk meningkatkan mutu perkhidmatan awam, MinDef telah melancarkan Program Pembudayaan Kualiti dan Inovasi. Program modal insan yang berterusan serta berkualiti untuk membentuk perkhidmatan awam bertaraf dunia.

Saya juga amat berbangga khasnya kepada warga MinDef kerana telah membawa MinDef berjaya memperolehi 5 bintang didalam SSR yang dilikelolakan oleh MAMPU, Jabatan

In 2010, the Ministry successfully held the DSA Exhibition 2010 at the Putra World Trade Centre Kuala Lumpur between the 19th to the 22nd of April 2010. The direct organisation of this exhibition introduced the Ministry and contributed towards the economic growth and the country's image internationally.

The Ministry of Defence had launched the MinDef Transformation Day focusing on the human capital agenda through the implementation phase programmes, effectively cooperating for the execution of the transformation plan. Among the objectives of the programme is to strengthen the delivery system of the public service as well as to enhance harmony and foster a culture of excellence thus strengthening MinDef's management and reinforces the character of its people.

In addition, the Ministry welcomed the nation's second submarine, the KD TUN RAZAK as the latest asset, being a historic and proud moment for all. This strategic asset was acquired to realize and fulfill the nation's defence capacity in the effort to strengthen the Malaysian Armed Forces as a capable, credible and balanced armed forces.

The Ministry of Defence has also succeeded in renewing its 5S Quality Environment Practice Certificate for the 2nd year. This success has indeed given added value to the high performance work culture in the Ministry of Defence.

In the government's efforts to improve the quality of public service, MinDef has launched the Innovation and Quality Culture Programme. A continuous and high quality human capital programme will form a world class public service.

I am very proud in particular to the people of MinDef for leading MinDef to win 5 stars in the SSR conducted by MAMPU, The Prime Minister's Department and this is an

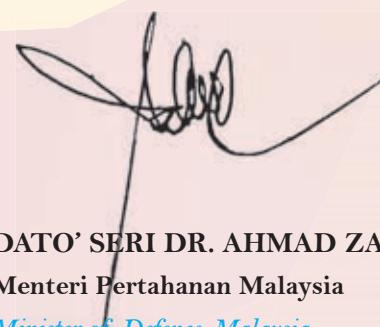

Perdana Menteri dan ini merupakan satu pencapaian secara langsung memartabatkan Kementerian selaras dengan keperluan agenda nasional.

Pada tahun ini juga Kementerian Pertahanan telah melakar sejarah buat pertama kalinya mengadakan Sambutan Hari Pahlawan 2010 disambut dengan istiadat kepahlawanan telah berjaya diadakan di Dataran Merdeka dan bukan di Tugu Negara. Sambutan yang bersejarah ini telah berjaya menyuburkan semangat patriotisme rakyat Malaysia tanpa mengira kaum.

Saya percaya penerbitan Laporan Tahunan ini boleh menjadi sumber informasi yang dapat memaparkan pencapaian pelbagai program, aktiviti dan kejayaan Kementerian dengan lebih tepat kepada rakyat. Ia juga membolehkan masyarakat mendapat gambaran sebenar serta menilai akan peranan, tanggungjawab dan usaha-usaha Kementerian Pertahanan dalam memberikan perkhidmatan yang cemerlang demi kepentingan Negara.

Akhir sekali, saya ingin menyeru kepada semua warga Kementerian Pertahanan dan ATM terus mempertingkatkan mutu perkhidmatan dan kerjasama yang telah wujud selama ini untuk membawa dikedudukan yang lebih tinggi demi mencapai hasrat murni demi bangsa, agama dan Negara.

Sekian. Wabillahi taufik Walhidayah Wassalamualaikum Warrahmatullahi Wabarakatuh, Salam Sejahtera dan Salam 1 Malaysia.

Minister of Defence, Malaysia

*achievement elevating the status of the Ministry in line with the national agenda needs.*

*This year, the Ministry has also made history by celebrating for the first time the Warriors Day 2010 at the Dataran Merdeka instead of the National Monument. This historic celebration successfully nourished patriotism of Malaysians regardless of race.*

*I believe this publication of the Annual Report will be an informative source which will showcase the status of the Ministry's various programmes, activities and successes to the people of Malaysia in a more accurate manner. This will also give the people of Malaysia a true picture of and allow assessment on the role, responsibility and efforts of the Ministry of Defence in giving excellent service and in the nation's interest.*

*Finally, I would like to appeal to the Ministry of Defence and MAF to continue to improve the quality of service and mutual cooperation that has existed over the years to another level to achieve our dreams and aspirations for the sake of our people, religion and nation.*

*Thank you, Wabillahi taufik Walhidayah Wassalamualaikum Warrahmatullahi Wabarakatuh, Salam Sejahtera dan Salam 1 Malaysia.*

KETUA SETIAUSAHA PERTAHANAN MALAYSIA  
Secretary General Ministry of Defence

بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِيْمِ

Assalamualaikum Warahmatullahhi Wabarakatuh dan salam sejahtera.

Segala puji-pujian bagi Allah S.W.T serta selawat dan salam ke atas junjungan besar Nabi Muhammad S.A.W. Bersyukur saya ke hadrat Allah S.W.T kerana dengan keizinanNya jua kita dapat terus menyumbang ke arah memartabat dan memperkasakan Kementerian Pertahanan sejajar dengan Dasar Pertahanan Negara. Untuk kesekian kalinya, Laporan Tahunan Kementerian Pertahanan 2010 dapat direalisasikan penerbitannya. Laporan ini amat penting untuk dijadikan rujukan dan panduan dalam menilai pencapaian Kementerian Pertahanan sepanjang tahun 2010 dan seterusnya membuat penambahbaikan ke atas perkara-perkara yang perlu supaya segala program yang dirancang dapat dilaksanakan dengan lebih efisyen dan teratur.

Bagi menjana dan merealisasikan Objektif Dasar Pertahanan Negara, Kementerian Pertahanan telah diperuntukkan

Assalamualaikum Warahmatullahhi Wabarakatuh and salam sejahtera.

All praises for Allah S.W.T and blessings and peace upon our beloved Prophet Muhammad S.A.W. I am very grateful to his Almighty for with his blessings we can continue to contribute towards strengthening and elevating the status of the Ministry of Defence in line with the National Defence Policy. Yet again the 2010 Annual Report of the Ministry of Defence has been successfully published. This report is important as a reference and guidance material to evaluate the achievement of the Ministry during the year 2010, and henceforth make improvements where necessary to ensure that all planned activities can be conducted in a more efficient and organised manner.

To generate and realise the objectives of the National Defence Policy the Ministry of Defence has allocated a total

sebanyak RM11.1 billion bagi melaksanakan projek infrastruktur dan perolehan kelengkapan. Dari jumlah tersebut, sebanyak RM 9.1 billion adalah merupakan peruntukan keseluruhan peruntukan Belanja Mengurus (OE). Manakala Belanja Pembangunan (DE) adalah sebanyak RM 2.1 billion. Prestasi Belanja Mengurus bagi tahun 2009 adalah sebanyak RM 1.9 billion atau 17.36% daripada peruntukan yang disediakan. Bagi tahun 2010, Kementerian juga telah diperuntukkan tambahan sebanyak RM 600,000,000 menjadikan jumlah peruntukan Belanja Mengurus Kementerian adalah sebanyak RM 9.7 billion. Jumlah ini menunjukkan penurunan sebanyak RM 950 juta berbanding peruntukan yang diperolehi pada tahun 2009 berjumlah RM 10.1 billion. Semua program dan perkhidmatan hendaklah mengamalkan pengurusan kewangan yang berdisiplin dan berhemah. Ini bermakna segala perbelanjaan hendaklah berdasarkan kepada peraturan-peraturan yang telah ditetapkan dan tidak melebihi peruntukan yang telah diluluskan. Perbelanjaan hendaklah dibuat secara berhemah, teliti, cekap dan berkesan serta memberikan pulangan Value-For-Money kepada Kementerian Pertahanan supaya pengurusan Kewangan masing-masing berada pada tahap terkawal dan telus.

Dengan jumlah peruntukan yang disediakan oleh pihak kerajaan ini, wajarlah setiap pegawai dan penjawat awam memberikan komitmen yang tinggi dalam melaksanakan semua program dan aktiviti yang telah diluluskan supaya mencapai matlamat dan sasarannya agar kebijikan dan hal ehwal Kementerian khususnya Angkatan Tentera Malaysia (ATM) sentiasa terpelihara. Semua pihak tanpa mengira program dan perkhidmatan hendaklah mengamalkan pengurusan kewangan yang berdisiplin dan berhemah.

*of RM11.1 billion for infrastructure projects and equipments acquisition. From this amount a total of RM 9.1 billion forms the entire Operation Expenditure whereas the Development Expenditure amounts to RM 2.1 billion. The administration expenditure performance for the year 2009 was RM1.9 billion or 17.36% from the available budget. For the year 2010, the Ministry was allocated an extra RM 600,000,000 making the total operational budget of the Ministry a total of RM 9.7 billion. This is a decrease of RM 950 million compared to that granted in the year 2009 of a total of RM 10.1 billion. All the programmes and services should practise discipline in financial management. This means that every expenditure must be made based on set rules and regulations and do not exceed the approved budget. Spending must be made in a careful cautious efficient and effective manner and gives value for money to the Ministry,to ensure that the financial management remains controlled and transparent.*

*With the amount allocated by the government, each officer and public servant should give their utmost commitment to carry out all plans and activities approved to achieve its target and mission to ensure the preservation of the Ministry's welfare in particular the Army. Everyone, regardless of programmes or service must practise honest and disciplined financial management.*

Sehingga penghujung tahun 2010, prestasi perbelanjaan keseluruhan (AKB) berdasarkan Laporan Jabatan Akauntan Negara bagi Kementerian Pertahanan adalah berjumlah RM 9.7 bilion iaitu 100.49% daripada keseluruhan siling yang diluluskan.

Peruntukan Pembangunan Kementerian Pertahanan bagi tahun 2010 adalah sebanyak RM 2.1 billion. Dari jumlah tersebut sebanyak RM 365 juta atau 99.67% telah dibelanjakan untuk Infra, manakala RM 1,680 juta atau 99.99% telah dibelanjakan untuk kelengkapan. Jumlah Perbelanjaan Pembangunan (DE) keseluruhan untuk Infra dan Kelengkapan Kementerian Pertahanan adalah sebanyak RM 2.04 billion atau 99.94%.

Bagi projek Perumahan peruntukan yang disediakan di bawah Jabatan Perdana Menteri (JPM) adalah sebanyak RM 115 juta. Daripada jumlah tersebut sebanyak RM 109 juta atau 94.6% telah dibelanjakan di sepanjang tahun 2010.

Salah satu ukuran prestasi perkhidmatan yang baik ialah arahan pembayaran bil kepada kontraktor perlu dibuat dalam tempoh 14 hari. Kerajaan akan terus memantau perkembangan agensi berhubung pembayaran dalam tempoh tersebut bagi bil-bil yang sempurna dan berdokumen lengkap. Pihak Kementerian Pertahanan sentiasa memastikan aduan terhadap permasalahan bayaran bil lewat dapat dibendung sepenuhnya kerana ia penting dalam membantu menjana pertumbuhan ekonomi negara.

Kementerian Pertahanan telah berjaya memperolehi penarafan 5 bintang pada tahun 2010. Kejayaan ini merupakan pengiktirafan kepada warga MinDef yang mengamalkan budaya kerja yang efisyen dan berkualiti. Dalam pada itu juga Kementerian Pertahanan telah berjaya memperbaharui Persijilan Amalan Persekutaran Berkualiti 5S pada bulan November 2010 yang lalu. Dengan

*By the end of 2010, the overall expenditure performance based on the Audit General Report for the Ministry of Defence was RM 9.7 billion, 100.49% of the total approved ceiling.*

*The Ministry of Defence's Development Budget for the year 2010 was for RM 2.1 billion. From the total, RM365 million or 99.67% were spent for Infra, and RM1,680 million or 99.99% was spent for equipment. The total development expenditure for the MOF's Infra and equipment amounted to RM2.04 billion or 99.94%.*

*For housing projects the allocated budget made available by the Prime Minister's Department was RM115 million. From the total, RM109 million or 94.6% was spent during the year 2010.*

*A good measurement of service performance is through instruction to pay contractors' bills within 14 days. The government will continue to monitor the relevant agency's progress to pay within that period, provided bills come with complete documentations. The Ministry of Defence always ensures that customers' complaints on delays of payment are fully addressed and contained, as it is important for the national economic growth.*

*The Ministry of Defence successfully obtained the 5 Star status in year 2010. This success is an acknowledgement to the people of MinDef who have been practising an efficient and quality work ethics. In the mean time, the Ministry also successfully renewed the 5S Quality Environment Practice Certificate on November 2010. This recognition will inspire excellence in the Minstry of Defence to maintain its status*

pengiktirafan Amalan Persekutuan Berkualiti 5S yang diperolehi, sedikit sebanyak dapat menjana kecemerlangan Kementerian ini kearah mengekalkan Kementerian Pertahanan sebagai sebuah Kementerian yang bertaraf 5 bintang. Tahun 2010, saya percaya semua warga Kementerian dan ATM telah berusaha untuk meningkatkan kerjasama dan melipat gandakan usaha dalam mencapai matlamat strategik Kementerian Pertahanan dan Negara.

Dalam usaha mencapai prestasi dan impak yang tinggi melalui Pelan Pembangunan Nasional, Misi Nasional telah mengenal pasti lima teras utama. Kementerian Pertahanan dan ATM akan terus berganding bahu melaksanakan aktiviti-aktiviti ke arah mencapai matlamat kesemua teras tersebut dengan menitik beratkan teras yang kedua dan kelima iaitu teras yang lebih signifikan dengan kedudukan kita dalam aspek keselamatan negara iaitu memperkasa belia melalui Program Latihan Khidmat Negara (PLKN) dan mengukuhkan keupayaan Institusi dan pelaksanaan. Jelas dengan melihat semula kedudukan kita dari memusatkan usaha dan produktiviti ke arah pencapaian teras dan matlamat ini, nescaya sumbangan kita dalam mewujudkan hasrat misi nasional adalah lebih tinggi.

Di dalam usaha kerajaan untuk meningkatkan mutu Perkhidmatan Awam, aspek peningkatan kualiti dan integriti pegawai dan kakitangan akan diberi penekanan sejajar dengan hasrat kerajaan untuk membentuk Perkhidmatan Awam bertaraf dunia. Sebagai yang ditegaskan oleh Y.A.B Perdana Menteri dalam festival Malaysia Inovatif 2010 yang telah diadakan di Stadium Bukit Jalil pada bulan November 2010, seluruh rakyat Malaysia perlu menggunakan inovasi untuk melonjakkankekayaan negara bagi memastikan hasrat memacu perubahan dan transformasi besar negara dapat dicapai menjelang 2020. Kita tidak seharusnya berpuas hati dengan

*as a 5 Star ministry. In 2010, the people of the Ministry and the MAF have jointly increased cooperation and doubled their efforts to achieve the strategic objectives of the Ministry and the nation.*

*In order to achieve a high performance and maximum impact through the National Development Plan, the National Mission has identified five core values. The Ministry and the MAF will continue to cooperate in implementing activities which will help achieve all the values, with the emphasis on the second and the fifth values, more significant to our position from the aspect of national safety, being the strengthening of youth through the National Service Programmes and to strengthen institutional capacity and execution. It is clear that by reviewing our position to centralise our efforts and productivity towards achieving the goals and core visions, we will be able to contribute more towards realizing our national mission.*

*In the government's effort to improve the quality of the Public Services, the aspect of increasing quality and integrity of civil servants and officers will be stressed on in line with the government's aim to have a world class Public Service. As emphasised by the Honourable Prime Minister in the Innovative Malaysia Festival 2010 held at Stadium Bukit Jalil in November 2010. All Malaysians should use innovation to increase national wealth to ensure that our goals to drive change and significantly transform our nation can be achieved by the year 2020. We should not remain satisfied with our improved performance achieved but instead should have positive attitudes instilled in us to continue to improve*

peningkatan prestasi kerja yang telah kita capai tetapi kita haruslah menanamkan sikap positif untuk terus meningkat dari masa ke semasa dan inilah cabaran sebagai warga Kementerian Pertahanan. Selaras dengan hasrat kerajaan mewujudkan Hari Inovasi, maka Kementerian Pertahanan telah mengambil daya usaha menganjurkan Hari Inovasi Kementerian Pertahanan yang membawa tema "Transformasi Melalui Inovasi".

Tema ini dipilih kerana Kementerian Pertahanan begitu komited untuk merealisasikan aspirasi Y.A.B Perdana Menteri yang ingin melihat inovasi sebagai tonggak utama ke arah pembangunan ekonomi mampan pada tahun-tahun mendatang. Adalah diharapkan agar melalui program-program seumpama ini, Kementerian dapat membina paradigma baru dalam memenuhi tuntutan semasa untuk memberikan perkhidmatan yang lebih berinovatif, berkualiti, cepat dan telus.

Akhir kata, saya ingin mengucapkan terima kasih kepada semua warga Kementerian, awam dan tentera yang telah memberi komitmen yang tinggi dalam memastikan Kementerian Pertahanan terus cemerlang.

Sekian, Wassalam.

*with time. This is the challenge as a member of the Ministry of Defence. In line with the national aim of setting up an Innovation Day, the Ministry of Defence has organised an Ministry of Defence Innovation Day with the theme "Transformation through Innovation".*

*This theme is chosen because the Ministry is so committed towards realizing the aspirations of the Prime Minister, who wants to see innovation as the key element of sustainable economic development in future years. It is hoped that through programmes such as these, the Ministry can build new paradigm in fulfilling current demands to give a service that is more innovative, higher quality, faster and more transparent.*

*Finally I would like to thank everyone in the Ministry both civilians and the armed forces who continue to give the highest level of commitment in ensuring the excellence of the Ministry of Defence.*

PANGLIMA ANGKATAN TENTERA

بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِيْمِ

Assalamualaikum warahmatullahi wabarakatuh dan Salam 1Malaysia.

Alhamdulillah, ATM menutup tirai tahun 2010 dengan indeks prestasi yang cemerlang baik dalam aspek pengoperasian mahupun pemerkasaan hala tujuanya. Dengan izin llahi dan berkat gandingan mantap antara ketiga-tiga cabang perkhidmatan ATM iaitu TD, TLDM dan TUDM, pelbagai ancaman dan isu keselamatan telah dapat ditangani dengan profesional dan berhemah. Saya turut bersyukur kerana hasil kerjasama padu antara ATM dengan agensi-agensi keselamatan dan penguatkuasaan, keadaan keselamatan persempadanan negara terus aman dan terkawal. Kesepakatan yang serupa juga diterjemahkan menerusi platform Blue Ocean Strategy dalam mendokong Pelan Transformasi Kerajaan. Perkongsian bijak antara ATM dan PDRM khususnya telah merealisasikan beberapa program seperti rondaan dan operasi bersama, penyerapan bekas anggota ATM ke dalam PDRM dan penggunaan infrastruktur tentera untuk melatih anggota PDRM. Sesungguhnya, fungsi waktu aman ATM seperti ini dan juga penempatan Pusat Pemasyarakatan Banduan di kem-kem ATM telah meringankan beban kewangan kerajaan. Walau pun konsep Blue Ocean Strategy baru diperkenalkan, namun usaha seumpama ini telah lama diperaktikkan oleh ATM melalui projek jiwa murni, contohnya

Assalamualaikum warahmatullahi wabarakatuh and Salam 1Malaysia.

*Alhamdulillah, the MAF ended the year 2010 with an excellent performance index, both on the operational side and in terms of strengthening the direction. With the grace of God and following the solid cooperation of all three branches of MAF Services, the RMA, the RMN and the RMAF, various challenges and issues on security were handled and addressed professionally and well. I am also grateful for, as a result of the cooperation between the MAF and the security and enforcement agencies, the borders of the country continue to be safe and controlled. This same cooperation is also translated through the platform Blue Ocean Strategy in supporting the Government's Transformation Plan. This smart partnership between the MAF and the PDRM has especially realized several programmes such as joint patrols and operations, absorption of former MAF officers into the PDRM and the use of military infrastructure to train PDRM members. In fact, these peacetime functions of the MAF including the settlement of Convicts Community at the MAF Camps, have ligthened the financial burdens of the Government. Although the Blue Ocean Strategy concept is newly introduced, similar efforts have been practised by the MAF through its Jiwa Murni (Pure Souls) Projects such as construction projects in rural Peninsular Malaysia, Sabah*

pembinaan serta pembangunan infrastruktur dan perumahan di kawasan pedalaman Semenanjung, Sabah dan Sarawak. Di samping itu, saya berpuas hati kerana kita telah berjaya melancarkan kompeni Askar Wataniah di 158 daripada 222 kawasan di seluruh negara. ATM penuh yakin bahawa strategi ini akan memperkasa barisan kedua pertahanan negara, dan sekaligus memantapkan lagi konsep Pertahanan Menyeluruh serta aspirasi integrasi nasional.

Perubahan ke atas persekitaran strategik, perkembangan teknologi maklumat dan revolusi dalam hal-ehwal ketenteraan menuntut agar keupayaan ATM dipertingkatkan secara berterusan. Sesungguhnya, hanya ketumbukan yang mantap sahaja dapat memberi keyakinan kepada rakyat dan pelabur asing khususnya bahawa ATM benar-benar mampu melindungi kedaulatan dan kepentingan strategik negara. Justeru, pelan peningkatan keupayaan terkini ATM yang merupakan dimensi keempatnya ataupun Fourth Dimension Malaysian Armed Forces tetap giat dilaksanakan secara berperingkat mengikut kemampuan semasa kewangan negara. Keprihatinan berterusan kerajaan terhadap keperluan ini amat kita hargai. Hasilnya, sistem pertahanan negara kini diperkuatkan lagi dengan kehadiran aset-aset kapital yang canggih. Langkah ini adalah suatu bentuk pelaburan besar yang amat penting demi menentukan integriti pertahanan dan kedaulatan negara kekal di tahap yang tinggi serta membolehkan kita menyumbang terhadap tuntutan keselamatan dan kestabilan serantau secara lebih efektif.

Di persada antarabangsa, ATM terus menerima pengiktirafan dari masyarakat dunia atas khidmat cemerlang dalam misi-misi di bawah panji-panji PBB. Antara lain, ATM telah diberi kepercayaan untuk mempertingkatkan penyertaan pasukan pengaman dalam misi UNIFIL di Lubnan iaitu MALBATT 2 dan MALCON East 6. Di samping itu, ATM sekali lagi diberi mandat untuk mengetuai Tim Pemantau Antarabangsa di Mindanao, serta menyertai misi bantuan khidmat kesihatan bagi pembangunan semula Afghanistan. ATM juga memainkan peranan pro-aktif dalam beberapa misi operasi bantuan kemanusiaan dan bencana alam, seperti yang terbukti semasa malapetaka gunung berapi di Merapi, Indonesia dan bencana banjir di Pakistan. Kemampuan ATM melaksanakan tanggungjawab moralnya dalam misi-misi berkenaan bukan sahaja telah melonjakkan imejnya di mata komuniti dunia, malahan yang lebih penting, turut

and Sarawak. I am satisfied because we have successfully launched the Askar Wataniah Company in 158 out of 222 areas, nationwide. The MAF is very confident that this strategy will enhance the second national defence front and at the same time, solidify the concept of comprehensive defence and meet the national integration aspirations.

*The change in strategic environment and the information technology development in military affairs demands that the capacity of MAF be continuously improved. Indeed only a solid force can assure the people and foreign investors in particular, that the MAF is indeed capable of protecting the sovereignty and strategic interest of the country. Hence, the capacity upgrade plan, its fourth dimension or the Fourth Dimension Malaysian Armed Forces is being implemented in stages in accordance with the country's financial capacity. We are grateful for the government's continued attention and priority on this and as a result the country's national system is strengthened with the presence of sophisticated capital assets. This is a significant investment and is critical to ensure that our defence integrity and sovereignty of the country is maintained at the highest level and enable us to contribute towards meeting the security and stability of the region in a more effective way.*

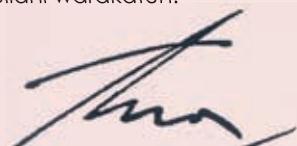

menyumbang secara signifikan ke arah pengukuhan hubungan diplomatik antara Malaysia dengan negara-negara sahabat.

Dari segi pengurusan organisasi pula, ATM turut menfokuskan perencanaan bidang keberhasilan utamanya agar seiring dengan petunjuk utama prestasi yang digariskan. Sebagai menentukan usaha tersebut bergerak di atas landasan serta memacu momentum yang sewajarnya, Sistem Pengurusan Strategik ATM yang berdasarkan kaedah balanced scorecard telahpun dilancarkan. Dalam konteks yang sama, saya bersyukur kerana pihak MAMPU telah memberi penarafan lima bintang kepada ATM bagi audit Sistem Star Rating 2010. Pencapaian ini secara jelas membuktikan bahawa ATM konsisten dalam menyokong dasar-dasar kualiti dan pengurusan seputrimana yang disarankan oleh kerajaan. Kejayaan ini diharap akan menyemarakkan lagi tekad warga ATM dalam menghadapi cabaran yang lebih besar iaitu aspek mempertingkatkan lagi kualiti kerja.

Kemajuan yang dilakar oleh ATM sepanjang tahun 2010 tidak mungkin tercapai sepenuhnya tanpa komitmen jitu pelbagai pihak. Sehubungan itu, bagi pihak ATM, saya merakamkan ucapan ribuan terima kasih kepada Kerajaan Malaysia, Ketua Setiausaha Kementerian Pertahanan, Kementerian-Kementerian lain, Kerajaan-Kerajaan Negeri, agensi-agensi keselamatan dan penguatkuasaan, media massa, dan pihak-pihak lain atas segala bentuk sokongan dan kerjasama padu kepada kami. Semoga permuafakatan dan keakraban yang terjalin antara kita kekal utuh demi memartabatkan agenda transformasi ATM ke arah memenuhi matlamat gagasan 1Malaysia dan 1ATM, insya Allah.

"Sentiasa Bersepadu"

*From the aspect of organisation management, the MAF concentrates mainly on results oriented fields to be in line with the outlined key performance indicators. To determine that the effort remains on the right track and to drive the right momentum, the MAF Strategic Management System based on balanced scorecard method was launched. In the same context, I am thankful as MAMPU has granted a five star rating to the MAF for the Star Rating System Audit 2010. This achievement proves that the MAF is consistent in its support of quality and management policies as recommended by the Government. This success is hoped to encourage the determination of MAF civilians and staff to face bigger challenges in the aspect of increasing the quality of work.*

*The advances made by the MAF during the year 2010 could not have been made without the solid commitment from many parties. In conjunction therewith, on behalf of the MAF, I wish to record my highest appreciation to the Government of Malaysia, the Secretary General of the Ministry of Defence, the other ministries, the State Governments, the security and enforcement agencies, the mass media, and other parties on their support howsoever given and their solid cooperation given. I hope the teamwork and bond between us can be maintained to ensure the highest esteem is given to the MAF transformation agenda towards achieving the 1Malaysia and 1ATM vision, insya-Allah.*

**4. AKTIVITI DAN PENCAPAIAN TAHUN 2010****4.1 RANCANGAN PENGAUDITAN YANG DILULUSKAN UNTUK 2010**

Pada tahun 2010, BADSA telah menetapkan sasaran 150 Pusat Kos untuk pelaksanaan Audit Pengurusan Kewangan berdasarkan Indeks Akauntabiliti (AI) secara manual. Pengauditan ini menggunakan penarafan berdasarkan sistem Star Rating yang digunakan oleh Jabatan Audit Negara dengan sedikit pengubahsuaian bagi membolehkan pelaksanaan di peringkat Pusat Kos. Manakala bagi Audit Pengurusan Kewangan secara online, BADSA telah merancang untuk melaksanakan pengauditan secara maya ke atas 106 Pusat Tanggungjawab (PTJ).

Bagi Kajian Prestasi, 14 kajian telah dirancang untuk dilaksanakan. Selain daripada itu, Audit Presence terhadap Pengurusan Panjar 3/12 di MALAWAKIL di Pejabat Penasihat Pertahanan (PPP) di 3 negara dan Audit Susulan pengurusan kewangan di pejabat MISI UNIFIL, Minurso, Lubnan telah dijadikan sasaran kerja BADSA bagi tahun 2010.

Bagi Siasatan Am, Tim Siasatan merancang untuk menyiasat berdasarkan aduan yang diterima dan mengikut merit.

**4. ACTIVITIES AND PERFORMANCE, 2010****4.1 APPROVED AUDIT PROGRAMME, 2010**

*In 2010, BADSA had set to perform the financial management audit for 150 cost centers manually, based on the Accountability Index. The audit used a grading system based on the Star Rating system used by the National Audit Department, with slight adjustments to allow implementation at the level of cost centres. While for online financial management audits, BADSA had planned to perform virtual audit on the 106 Responsibility Centres (PTJ).*

*For performance review, 14 reviews were proposed to be carried out. Aside from that, Audit Presence on 3/12 Advance Management at the MALAWAKIL at the Defence Advisor's Office in 3 countries and financial management audit follow up were carried out at the MISI UNIFIL office, Minurso, Lebanon were made the BADSA's target for the year 2010.*

*For General Investigation, the Investigation Team planned to investigate based on the complaints received and with merit.*

**4.2 PENCAPAIAN AUDIT 2010****4.2.1 AUDIT PENGURUSAN KEWANGAN**

Keputusan star rating bagi 121 Pusat Kos yang telah dilaksanakan pengauditan AI pada tahun yang sama adalah seperti berikut: 9 Pusat Kos telah mencapai tahap 4 bintang, 107 Pusat Kos mencapai 3 bintang, 4 Pusat Kos mencapai tahap 2 bintang dan 1 Pusat Kos mencapai tahap 1 bintang.

Pada tahun 2010 juga, BADSA telah berjaya melaksanakan pengauditan secara maya atau online. Pengauditan ini masih menggunakan Indeks Akauntabiliti sebagai panduan cuma yang membezakannya adalah cara pelaksanaan pengauditan dilakukan secara atas talian (online) dan ianya dikenali dengan nama Accountability Index Monitoring System (AIMS). Pada bulan Julai 2010, AIMS telah dijalankan ke atas 106 PTJ di Kementerian dan 100 peratus auditi telah berjaya melaksanakan AIMS, dan keputusan pengauditan selepas verifikasi adalah seperti berikut: 58 PTJ telah mendapat tahap 4 bintang, 38 PTJ telah mencapai tahap 3 bintang dan 10 PTJ telah mencapai tahap 2 bintang.

**4.2.2 AUDIT PRESTASI**

BADSA juga telah melaksanakan Audit Prestasi atau kajian audit. Sebanyak 14 tajuk kajian audit telah dipilih dan namun begitu hanya 13 tajuk kajian dapat dilaksanakan secara intensif untuk mencari jalan penyelesaian terhadap kes-kes bermasalah atau kritikal berdasarkan perancangan keutamaan projek. Tajuk-tajuk kajian dipilih melalui kaedah Strategic Planning, di mana tujuh kriteria utama digunakan untuk menentukan merit bagi setiap tajuk yang dipilih. Tujuh kriteria berkenaan adalah; materialiti, auditabiliti, visibiliti, liputan, impak, signifikan dan risiko.

**4.2.3 AUDIT MALAWAKIL**

Manakala bagi Audit MALAWAKIL, sebelum ini BADSA mensasarkan untuk menjalankan audit

*Also in the year 2010, BADSA successfully carried out online audit. This audit still uses the Accountability Index as a guide, and the only difference is that the audit is carried out online, and is known as the Accountability Index Monitoring System (AIMS). In July 2010, AIMS was carried out on 106 PTJ at the Ministry Level and 100 percent audit was carried out successfully via AIMS. The audit results after verification are that 58 PTJ reached 4 stars, 38 PTJ achieved 3 stars, and 10 PTJ achieved 2 stars.*

**4.2.2 PERFORMANCE AUDIT**

*BADSA also carried out a performance audit or audit review. 14 audit review topics were chosen although only 13 were carried out intensively to resolve critical and problematic cases based on project priority planning. The review topics were chosen through the Strategic Planning method, where 7 main criteria are used to determine merit for each chosen topic. The seven topics are materiality, auditability, visibility, coverage, impact, significance, and risk.*

**4.2.3 MALAWAKIL AUDIT**

*Meanwhile for MALAWAKIL Audit, prior to this BADSA had aimed to carry out an audit at the*

di Pejabat Penasihat Pertahanan di 3 negara dan melakukan satu audit susulan namun oleh kerana kekangan kewangan, BADSA hanya mampu melaksanakan audit pengurusan kewangan di 2 Pejabat Penasihat Pertahanan di Phnom Penh, Kemboja dan Medan, Indonesia.

## BAHAGIAN PENGURUSAN SUMBER MANUSIA

### BPSM PENJANA MODAL INSAN DAN ORGANISASI MINDEF

#### LATAR BELAKANG

Bahagian Pengurusan Sumber Manusia (BPSM) telah ditubuhkan pada tahun 1969 dengan nama Bahagian Naziran Perjawatan. Pada 1 Ogos 1985, bahagian ini dicantumkan dengan bahagian Perkhidmatan dan dikenali dengan nama Bahagian Naziran Perjawatan dan Perkhidmatan.

Berikut dengan penubuhan Jabatan Perkhidmatan Awam pada tahun 1968 dan berdasarkan Kajian Mesyuarat Khas Ketua Setiausaha Negara pada tahun 2000, semua Bahagian Naziran Perjawatan dan Perkhidmatan di semua kementerian telah ditukar kepada Bahagian Pengurusan Sumber Manusia (BPSM) bagi menyesuaikan dengan peranan yang dilaksanakan pada masa tersebut. Sejak dari itu peranan BPSM di Kementerian Pertahanan (MinDef) dan di kementerian-kementerian lain telah diselaraskan dan memainkan peranan sebagai 'Mini JPA'.

#### PERANAN BARU BPSM MINDEF

Selari dengan perubahan zaman dan agenda negara, BPSM juga tidak ketinggalan berubah. Pihak Pengurusan Tertinggi MinDef mahukan supaya BPSM menjadi penggerak transformasi ke arah kecemerlangan organisasi, selain meneruskan tugas hakikinya sebagai penggerak transformasi kecemerlangan warga MinDef.

BPSM juga menjadi Kementerian perintis dalam menterjemahkan Model Lapan Tonggak Perdana ke dalam Pelan Transformasi MinDef. Dengan terlaksananya Pelan Transformasi MinDef ini, penekanan yang lebih telah diberikan kepada nilai-nilai kreativiti dan inovasi dalam budaya kerja warganya agar mereka dapat bersama-sama menjadi "agen perubahan" di tempat kerja masing-masing. Mereka seharusnya lebih sensitif dengan sebarang perubahan dan pembaharuan yang dikehendaki oleh pihak kerajaan.

## HUMAN RESOURCES MANAGEMENT DIVISION

### HRMD AS THE GENERATOR OF HUMAN CAPITAL AND ORGANISATION OF MINDEF

#### BACKGROUND

The Human Resources Management Division (HRMD), was established in 1969 with the name Staff Inspection Division. On the 1st August, 1985, this division merged with the Service Division and was known as the Service and Staffing Inspection Division.

With the setting up of the Public Service Department in the year 1968 and based on the results of the Secretary General Special Meeting in the year 2000, all Service and Staffing Inspection Division were changed to the Human Resources Management Division (HRMD) as was more suitable to the role it played at the time. Since then the role of HRMD at the Ministry of Defence (MinDef) and in other ministries were aligned and it played the role of a "Mini PSD".

#### MINDEF HRMD'S NEW ROLE

In line with the changing era and the national agenda, HRMD has not escaped change. The Top Management of MinDef intends for HRMD to drive the transformation process towards the organisation's excellence, as well as its basic role of driving the transformation of MinDef's civilians to excellence.

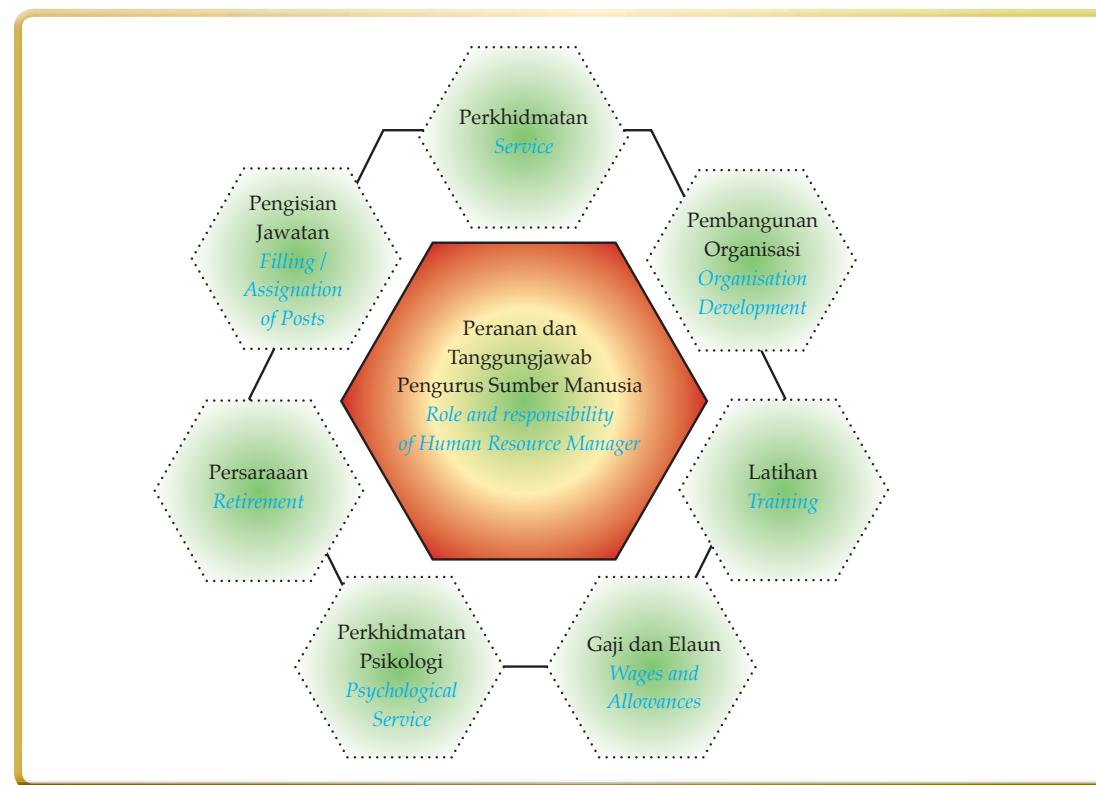

HRMD is also a pioneer in translating the Eight Primary Pillars Model into the Mindef Transformation Plan. With this Mindef Transformation Plan, more emphasis was given on values of creativity and innovation in the work culture of its civilians, so that all may be agents of change at their own work place and be more sensitive to any changes and innovation that the government desires to achieve.

Dalam hal ini BPSM bukan hanya berperanan menguruskan modal insan sumber manusia MinDef malahan turut memainkan peranan penting di dalam urusan korporat MinDef seperti System Star Rating, Transformasi, Badan Kesenian MinDef (BKM), Askar Wataniah dan seumpamanya.

Secara hakikinya BPSM memainkan tiga peranan penting iaitu:

#### Tatatertib

Dalam usaha menyediakan modal insan yang terbaik untuk kementerian, tidak dinafikan ada waktunya terdapat warga kerja yang tidak mematuhi peraturan atau undang-undang yang telah ditetapkan.

#### Discipline

In an effort to provide the best human capital for the ministry, it cannot be denied that some employees do not comply with the rules or regulations that have been put in place.

Sehubungan itu, bagi warga kerja yang melanggar peraturan, tindakan tatatertib akan diambil. Kontra dengan anggapan ramai bahawa tindakan tatatertib adalah hanya untuk menghukum pegawai yang bersalah, tindakan tatatertib sebenarnya bertujuan lebih besar daripada hanya untuk menghukum sahaja.

In connection therewith, disciplinary actions will be taken for employees found to have flouted the regulations. In contradiction to the common perception that disciplinary actions are taken to punish errant officers, disciplinary actions have a bigger purpose than punitive action only.

Melalui tindakan tatatertib, pegawai yang bersalah diharap akan insaf dan berubah menjadi lebih baik di masa hadapan. Pada masa yang sama, hukuman tatatertib juga berfungsi sebagai satu iktibar kepada pegawai lain untuk tidak

Through disciplinary actions, the officer in question will hopefully repent and become a better officer in the future. At the same time, disciplinary actions also function as a lesson to others to not be influenced by the wrong examples.

mengikuti contoh teladan yang salah. Ini adalah penting untuk memastikan bahawa modal insan yang berada di kementerian adalah yang terbaik.

Bagi tahun 2010, bilangan kes yang diterima adalah sebanyak 164 kes dan bilangan pegawai yang dikenakan hukuman buang kerja adalah seramai 65 orang. Statistik hukuman bagi tahun yang sama adalah seperti di Jadual 11.

**PERKHIDMATAN PSIKOLOGI**

Selaras dengan hasrat kerajaan yang mengutamakan pembangunan modal insan, Pengurus Sumber Manusia, MinDef telah melaksanakan penambahbaikan urusannya dengan menerapkan aspek psikologi dan kaunseling. Melalui pendekatan sedemikian, faktor manusia sebagai modal insan dapat diperkasakan ke tahap optimum.

Pendekatan psikologi dan kaunseling merupakan tindakan yang perlu dilaksanakan dalam usaha membangunkan modal insan yang menekankan aspek-aspek berikut:

- **Pembangunan**

Program pembangunan yang menitikberatkan potensi serta prestasi pegawai telah dianjurkan selaras dengan objektif individu dan organisasi. Empat siri program Bengkel Motivasi Kerja dan empat siri Kursus Membentuk Pekerja Cemerlang telah dilaksanakan yang melibatkan penjawat awam di peringkat MinDef, Briged dan Unit. Objektifnya untuk memperkasakan potensi serta motivasi kerja penjawat awam agar memberi impak kepada prestasi kerja secara langsung.

- **Pencegahan**

Kaedah psikologi yang bersesuaian digunakan bagi memastikan perkhidmatan awam dianggotai oleh pegawai yang berkualiti melalui proses pemilihan, penempatan, pengurusan prestasi dan pembangunan kompetensi. Dalam hal ini, dua siri pementoran yang melibatkan penjawat awam dari pelbagai Bahagian dan skim perkhidmatan telah diadakan. Program ini juga bertujuan membantu membimbing serta membentuk kumpulan kerja cemerlang bagi menyediakan satu landasan kepimpinan unggul pada masa sekarang mahupun pada masa akan datang. Selain dari itu, program peningkatan kesedaran pengurusan kewangan berhemah juga dititikberatkan dalam langkah pencegahan mengelak penularan masalah keberhutungan yang serius di kalangan penjawat awam.

**PSYCHOLOGICAL SERVICES**

*In line with the government's aim of prioritising human capital development, the Human Resources Manager, MinDef, has improved its services by incorporating psychological and counselling aspects. Through this approach, the strength of people factor as human capital can be optimised.*

*Psychological and counselling approach is an action which must be carried out as part of the efforts to develop human development, which will emphasise the following:*

- **Development**

*A development programme that stresses on potential and performance of officers was organised in line with the individual and organisational objectives. Four series of the Job Motivational Workshop and four series of Creating the Excellent Employee Course was carried out, involving public servants at the levels of MinDef, Brigades and Units. The objectives are to strengthen the potential and motivation of the civil servants so that it will give a direct impact on their work performance.*

- **Prevention**

*The appropriate psychological method is used to ensure that the public sector is manned by officers of quality, through the process of selection, attachment, performance management and competency development. In this respect two mentoring series involving civil servants from various Divisions and Service Schemes were held, aimed at assisting and guiding as well as creating a work of excellence group, to create a platform for out-standing leadership both presently and in the future. Aside from this, programmes on enhancement of financial ethics awareness are also important in the prevention of serious debt related problems amongst the civil servants.*

- **Pemulihan**

Program psikologi untuk individu bertujuan membuat perubahan dengan mempertingkatkan keupayaan mengurus emosi, tingkah laku dan pemikiran. Pelbagai slot ceramah ringkas tetapi padat dengan penglibatan setiap lapisan perjawatan penjawat awam dari Kumpulan Pengurusan dan Profesional sehingga Kumpulan Sokongan telah diadakan. Antara slot ceramah yang disampaikan seperti pengurusan stress, pengurusan sikap dan perubahan serta pengurusan kecemerlangan emosi. Justeru, dengan adanya wacana serta wadah ilmu dapat membina karakter positif di kalangan penjawat awam selaku modal insan, yang berfikiran positif sudah pasti akan memberi nilai tambah kepada organisasi. Usaha dalam membimbing setiap warga kerja agar sentiasa berada dilandasan yang betul dititikberatkan. Justeru, Pembimbing Rakan Sekerja Perkhidmatan Awam (AKRAB) telah ditubuhkan dalam merealisasikan aspirasi kerajaan dalam membentuk budaya kerja cemerlang. MinDef telah mempunyai seramai 71 orang ahli AKRAB di seluruh negara dan mereka memainkan peranan dalam membimbing rakan sekerja agar sentiasa berdaya saing dan bermatlamat serta mempunyai motivasi kerja yang tinggi.

- **Rehabilitation**

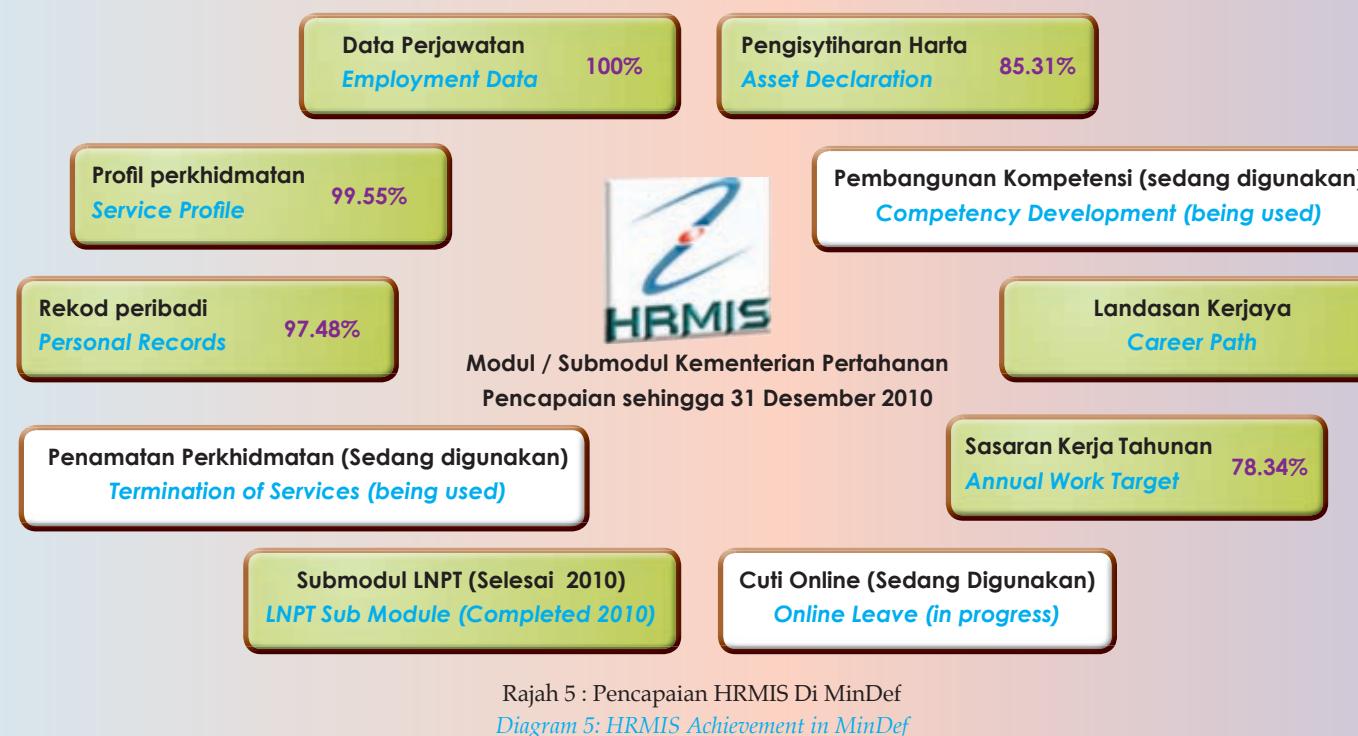

*Psychological programmes for individuals are aimed to lead to changes by increasing one's capacity to control emotions, behaviour and thoughts. Various lecture slots were held, brief but fully participated by every level of civil servants, from the Management and Professional Group to the Support Group. Amongst the lectures given were on stress management, attitude management and change, and emotional excellence management. With the existence of discourse and knowledge platform, the positive character of the civil servant as human capital can be developed. Human capital with positive attitude will surely provide added value to the organisation. Efforts to guide each employee to remain on the right track are important and thus the Public Service Work Colleague Adviser (AKRAB) has been set up in realising the government's aspiration in creating a culture of work excellence. MinDef has 71 members of AKRAB throughout the country playing a role in guiding their colleagues to remain competitive and goal oriented, with a high job motivation.*

## 4 KESIAPSIAGAAN INFRASTRUKTUR ICT

### 4.1 Security Posture Assessment

Pelaksanaan Security Posture Assessment adalah salah satu kaedah yang digunakan oleh BPM dalam mengenal pasti ancaman-ancaman pencerobohan, langkah-langkah pengukuhan serta pengurangan impak ancaman ke atas aset ICT. Pelaksanaannya dalam tahun 2010 memberi penekanan kepada mengenal pasti kelemahan dan vulnerabilities ke atas peralatan (appliances) rangkaian dan server, network performance dan penilaian kepada kelemahan aplikasi sistem.

### 4.2 Infrastruktur Rangkaian Internet MinDef

Dalam merealisasikan budaya ICT di kalangan warganya, MinDef memberi keutamaan dalam menyediakan infrastruktur yang kukuh, berkesan dan sentiasa berada di tahap ketersediaan yang tinggi.

#### a. Kampus Wisma Pertahanan

Pada tahun 2010, rangkaian internet MinDef telah diperkukuhkan tiga (3) kali ganda daripada kapasiti asal bagi menampung bilangan pengguna MinDef yang sentiasa bertambah mendapat kemudahan capaian internet dan aplikasi berdasarkan web dengan lebih pantas. Disamping itu, kombinasi pelbagai Internet Service Provider (ISP) dapat meminimumkan gangguan perkhidmatan kepada pengguna apabila berlaku downtime ke atas salah satu rangkaian ISP.

#### b. Kampus Luar Wisma Pertahanan - MinDef2

Semenjak perpindahan beberapa bahagian MinDef dan JLKN ke Bangunan ZETRO (MinDef2) pada tahun 2009, pelbagai langkah telah diambil untuk memastikan kemudahan ICT setara dengan yang disediakan di Wisma Pertahanan. Empat (4) jenis rangkaian iaitu rangkaian talian suwa (leased line) 2.0 Mbps, Streamyx, EG\*Net dan MinDef\*Net telah beroperasi sepenuhnya. Infrastruktur ini telah membolehkan pelaksanaan capaian internet, aplikasi emel, aplikasi kerajaan elektronik seperti eSPKB, HRMIS dan ePerolehan serta aplikasi-aplikasi dalam talian MinDef, JLKN dan MAFCA.

## 4 ICT INFRASTRUCTURE ALERTNESS

### 4.1 Security Posture Assessment

*The implementation of the Security Posture Assessment is one of many methods used by the IMD to identify threats of breach, measures to reinforce and to reduce impact of threats, on the ICT assets. Its implementation in the year 2010 focused on identifying weaknesses and vulnerabilities in network appliances and server, network performance and also focused on assessment of system application vulnerabilities.*

### 4.2 MinDef Internet Network Infrastructure

*In making the ICT culture a reality among its members, MinDef focuses on preparing a strong effective infrastructure that is on a high level of readiness.*

#### a. The Defence Building campus

*In the year 2010, the MinDef internet network was increased three times from the original capacity to support the increasing number of MinDef users to get internet access and web based applications faster. In addition the combinations of several Internet Service providers (ISP) will minimise service interruption to the users in the event of downtime on one of the ISP network.*

#### b. Defence Building's External Campus - MinDef 2

*Since moving several divisions of MinDef and JLKN to ZETRO Building (MinDef 2) in 2009, several steps have been taken to ensure the level of ICT service provided is the same with that at the Defence Building. The four (4) types of network, being leased line, 2.0 Mbps, Streamyx, EG\*Net and MinDef\*Net is fully operational. This infrastructure allows internet access, email applications, electronic government applications such as eSPKB, HRMIS and e-perolehan and other online applications in MinDef, JLKN and MAFCA.*

Prestasi capaian sentiasa dipantau dan pada tahun 2010 kapasiti internet telah ditingkatkan sebanyak empat (4) kali ganda daripada asal.

*Access and connection performance is constantly being monitored and in the year 2010 the internet capacity was increased four times from its original capacity.*

#### c. Kampus Luar Wisma Pertahanan – Warga Awam MinDef di ATM

Kemudahan capaian internet melalui pelbagai saluran seperti talian Streamyx, satelit dan teknologi Evolution Data Optimized (EVDO) dibekalkan kepada warga awam MinDef yang bertugas di bawah ATM. Ini adalah sebagai langkah merapatkan jurang digital di antara mereka dengan warga awam MinDef di kampus Wisma Pertahanan dan perkembangan arus perdana kerajaan. Dengan kemudahan ini, komunikasi dan penyaluran maklumat menjadi lebih pantas, rujukan ke atas pekeliling-pekeliling kementerian dan kerajaan pusat lebih mudah di samping mempercepatkan perluasan pelaksanaan sistem-sistem aplikasi online. Sehingga tahun 2010, sebanyak 239 Pejabat Tadbir Awam (PTA) telah mendapat kemudahan capaian internet melalui talian Streamyx dan beberapa lokasi-lokasi terpencil sedang di dalam perancangan menggunakan EVDO dan kemudahan satelit.

#### c. Defence Building's External Campus - General MinDef Citizens in the MAF.

*The internet access facility is made available to the general citizens of MinDef working in the MAF through various channels such as Streamyx line, satellite, and Evolution Data Optimised Technology (EVDO). This is as a measure to close the digital gap between this category with the general citizens of MinDef in the Defence Building campus and to follow the development of governmental trend. With this facility, communication and dissemination of information becomes faster, and references to directives from the ministry and the government will be easier. In addition the expansion in the implementation of online application systems can be made faster. Up to the year 2010, as many as 239 Public Administrative Offices (PAO) have been given internet access facility through Streamyx line and several other remote locations are now in the process through the use of EVDO and satellite.*

#### 4.4 Pemantapan Sistem Emel MinDef

Pengurusan MinDef sangat menekankan pelaksanaan paperless office dan kemudahan emel merupakan strategi terpantas dalam menerapkan budaya ini di kalangan warga MinDef. Sejak dengan ini, MinDef meletakkan penyediaan perkhidmatan emel yang terbaik sebagai keutamaan dalam pelaburan aset ICT. Berasaskan kepentingan tersebut, MinDef telah melaksanakan Sistem Microsoft Exchange 2010 yang telah memberi manfaat kepada lebih 2000 pengguna terdiri daripada warga awam MinDef dan ATM bermula Januari 2010.

Selain daripada menetapkan semua panggilan mesyuarat, pengesahan kehadiran mesyuarat dan pengedaran minit-minit mesyuarat utama MinDef dibuat melalui emel, pengguna juga diminta merujuk kepada sistem kalender di bawah perisian yang sama untuk penjadualan mesyuarat-mesyuarat yang dirancang terutama yang melibatkan pengurusan tertinggi MinDef dan bahagian. Kemudahan ini juga digunakan untuk hubungan dengan pelanggan-pelanggan seperti di dalam sistem aduan, komunikasi antara agensi kerajaan, kontraktor dan notis bayaran tuntutan pegawai-pegawai.

#### 4.4 Reinforcement of MinDef Email System

The management of MinDef places great importance on implementing a paperless office concept and e-mail facility is the fastest strategy in internalising this culture amongst the MinDef citizens. In line with this strategy, MinDef considers having the best email service as a top priority in ICT asset investment. Based on this, MinDef has launched the Microsoft Exchange 2010 System which has benefited more than 2000 users comprising of the MAF and MinDef general citizens since January 2010.

Aside from setting all conference calls, meeting attendance verification, and distribution of minutes of important MinDef meetings are all done via email and the users are also requested to refer to the calendar system under the same software for schedules of planned meetings, especially those which involve the highest level of MinDef's management and divisions. This facility is used for the purpose of communicating between end users such as in Complaints system, communication between government agencies and contractors, and claim payment notices of officers.

#### 4.5 Pelaksanaan Projek Server Consolidation

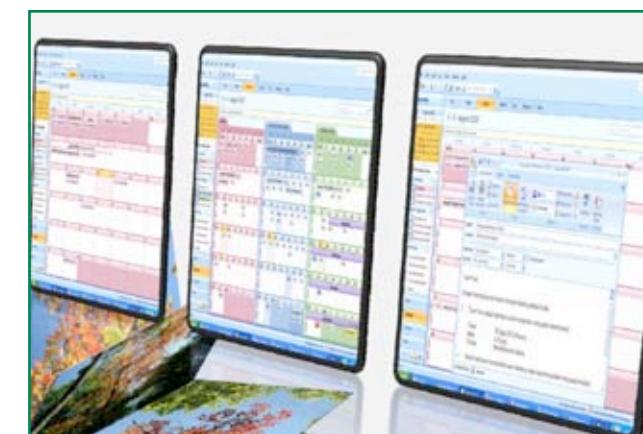

Projek Server Consolidation yang mula dilaksanakan pada Mac 2009 adalah merupakan konsolidasi server system aplikasi yang ditempatkan di dalam satu chasis untuk mengoptimumkan penggunaan infrastruktur, mengurangkan kos operasi, menjimatkan sumber elektrik dan penjimatan ruang Pusat Data BPM. Terdapat 46 sistem aplikasi telah dipasang pada server tersebut. Projek Server Consolidation Fasa 2 telah dilaksanakan pada November 2010 dan dijangka siap pada Mac 2011. Projek ini bertujuan untuk menampung pertambahan operasi sistem-sistem aplikasi MinDef serta saiz data yang semakin besar berdasarkan keperluan dan permintaan semasa.

MinDef tidak terkecuali daripada organisasi lain dalam memastikan pelaburan ICT dioptimumkan di samping menyokong teknologi hijau ICT. Dimulakan dengan peralihan pelbagai server di pusat data utama kepada sistem server konsolidasi dengan keupayaan maya (virtualization). Pendekatan ini telah menjimatkan ruang pusat data, sumber elektrik, penempatan server lebih tersusun, keupayaan maya yang lebih menguntungkan, memudahkan pentadbiran sumber ICT dan seterusnya mengurangkan kos keseluruhan operasi. Dalam tahun 2010, strategi ini telah diperluaskan untuk menampung keperluan server untuk aplikasi-aplikasi baru, termasuk bagi kegunaan server pangkalan data.

#### 4.5 The Implementation of Server Consolidation Project

The Server Consolidation Project, first implemented in March 2009, is a consolidation of Application System servers which is placed in one chassis to optimise the use of infrastructure, to reduce costs of operation and to save electrical resources and IMD Database. There are 46 application systems placed on the said server. The 2nd Phase of the Server Consolidation Project was launched in November 2010 and expected to be completed in March 2011. The project is aimed to support the additional operations of MinDef's application systems as well as to accommodate the increased data size based on current demands and needs.

Much like other agencies, MinDef ensures the optimisation of its ICT Investment as well as supports green ICT technology. Beginning with the transfer of multi server at the main data centre to the consolidated system server with virtualisation, this approach has saved data centre space, electricity, ensured a more organised arrangement of servers, a more profitable virtual capacity, easing the management of ICT Resources and also reduces the overall operational costs. In the year 2010, this strategy was expanded to accommodate server requirement for new applications, including that for data base server use.

#### 4.6 Pengukuhan Sistem Keselamatan Fizikal Di Wisma Pertahanan

Sebagai Kementerian yang bertanggungjawab terhadap keselamatan dan pertahanan Negara, MinDef sentiasa mempertingkatkan sistem kawalan dan pemantauan keselamatan. Sebagai kawasan larangan, premis-premis MinDef dilengkapkan dengan pengawal keselamatan serta kemudahan kawalan elektronik.

Pada tahun 2010, beberapa komponen Access Control and Security System (ACASS) yang dilaksanakan di Wisma Pertahanan sebagai pelengkap sistem fizikal untuk mengawal dan memantau akses warga dan pelawat MinDef ke Wisma Pertahanan telah dinaiktaraf dengan penggantian barrier dan penambahan kamera CCTV bersesuaian dengan perkembangan teknologi keselamatan yang lebih canggih.

#### 5 BUDAYA BERKUALITI TERAS PERKHIDMATAN

##### 5.1 Persijilan MS ISO 9001:2008

Bagi memastikan kualiti perkhidmatan ICT yang disediakan sentiasa berada di tahap yang terbaik, BPM telah memperolehi Persijilan MS ISO 9001:2008 pada 9 April 2010 daripada SIRIM QAS International Sdn. Bhd. untuk tempoh tiga (3) tahun. Skop pensijilan meliputi pembangunan dan pelaksanaan sistem aplikasi dan lima (5) perkhidmatan utama operasi BPM iaitu perkhidmatan helpdesk, internet, emel, pengurusan aset dan prosedur backup and recovery.

#### 4.6 Reinforcement of the Physical Security System at the Defence Building

*As a ministry responsible for the country's security and defence, MinDef is always improving its security control and monitoring system. As a restricted area, MinDef premises have been equipped with security guards and electronic control facility.*

*In the year 2010, several components of the Access Control And Security System (ACASS) which had been earlier implemented at the Defence Building as a complement to the physical system used to control and monitor the access of both visitors and citizens of MinDef to the Defence Building, was enhanced by the replacement of the barrier and additional CCTV cameras, in line with the increasingly sophisticated technology for security.*

#### 5 QUALITY CULTURE AS THE CORE OF SERVICE

##### 5.1 MS ISO 9001:2008 Certification

*To ensure that the quality of ICT service provided remains at the highest level, IMD has obtained MS ISO 9001:2008 certification on 9th April 2010 from SIRIM QAS International Sdn. Bhd. for a period of three years. The scope of the certification includes the development and implementation of application systems and five core operations of IMD, being helpdesk service, internet, e-mail, asset management and back up and recovery procedures.*

Pelaksanaan piawaian ini telah berkuatkuasa mulai 2 Mac 2009 dan didapati kualiti perkhidmatan kepada pengguna dapat ditingkatkan di samping mewujudkan warga BPM yang lebih komited dalam menyediakan perkhidmatan ICT yang terbaik.

Kejayaan ini dicapai hasil komitmen semua warga BPM menyertai semua aktiviti yang dijalankan seperti program Kesedaran MS ISO 9001:2008, Bengkel Audit Dalaman dan mematuhi prosedur kerja yang telah ditetapkan.

##### 5.2 Piawaian Sistem Pengurusan Keselamatan

Maklumat dan Pengurusan Perkhidmatan ICT Usaha-usaha penerapan budaya kualiti tinggi di BPM dilaksanakan secara berterusan. Inisiatif awal ke arah persijilan MS ISO/IEC 27001:2007 Information Security Management System (ISMS) dan MS ISO 20000 telah digerakkan pada tahun 2010 seperti mengadakan sesi kesedaran dan kefahaman dari segi konsep kepada pengurusan MinDef dan warga BPM.

Gambarajah 10: Aktiviti Audit Dan Persijilan MS ISO 9001:2008  
Diagram 10: Audit and MS ISO 9001:2008 Certification Activity

*The certification came into effect on 2nd March 2009 and has led to a better service quality of the service provided to end users. It has also created IDM citizens who are more committed in providing a better ICT service.*

*This was obtained as a result of the commitment of IDM staff who participated in all planned activities, such as the MS ISO 9001:2008 Awareness Programme, the Internal Audit Workshop, and also who complied with all the set work procedures.*

##### 5.2 Standards of the Management of Information

*Security System and ICT Service Management System Efforts to inculcate the quality of excellence in IMD are continuously being made. Early initiatives towards the MS ISO/IEC 27001:2001 Information Security Management System (ISMS) and MS ISO 20000, commenced in the year 2010 with activities such as sessions of awareness and understanding of concepts to the management of MinDef and staff of IMD.*

## 6. HAKIM PEGUAM

6.1 Hakim Peguam dilantik oleh Ketua Hakim Peguam untuk menjalankan tugas di Mahkamah Tentera bagi ketiga-tiga perkhidmatan Darat, Laut dan Udara. Kehadiran Hakim Peguam adalah perlu untuk perbicaraan kes-kes yang melibatkan isu undang-undang yang rumit dan apabila tertuduh diwakili oleh peguambela.

6.2 Pada teorinya Hakim Peguam adalah seorang yang mempunyai kelayakan undang-undang yang dilantik oleh Ketua Hakim Peguam. Sekiranya Ketua Hakim Peguam gagal melantik Hakim Peguam, maka Hakim Peguam boleh dilantik oleh Pegawai Sidang. Walau bagaimanapun, pada amalan sekarang Hakim Peguam adalah seorang pegawai undang-undang yang dipinjamkan dari Jabatan Peguam Negara. Tugas-tugas am seorang Hakim Peguam adalah diperuntukkan di bawah Kaedah 103, Kaedah-Kaedah Acara Angkatan Tentera (Mahkamah Tentera) 1976. Dengan kata lain Hakim Peguam adalah penasihat undang-undang kepada perbicaraan sesuatu kes di Mahkamah Tentera.

6.3 Adalah matlamat Jabatan ini, agar kes-kes yang didaftar di Mahkamah Tentera dapat dibicarakan dan diselesaikan dalam tahun yang sama. Ini untuk mengelakkan tempoh had masa (limitation period) 3 tahun dan mengakibatkan berlaku ketidakadilan kepada tertuduh. Di bawah Kaedah-Kaedah Acara Angkatan Tentera (Mahkamah Tentera) 1976, seorang tentera yang dituduh di Mahkamah Tentera tidak boleh dijamin dan hendaklah dikenakan tahanan.

## 6. JUDGE ADVOCATE

6.1 A Judge Advocate is appointed by the Judge Advocate General to implement duties in the Court Martial for the three services; Royal Army, Navy and Air Force. The presence of the Judge Advocate is necessary for trials of cases involving complicated legal issues and when a defense attorney represents the defendant.

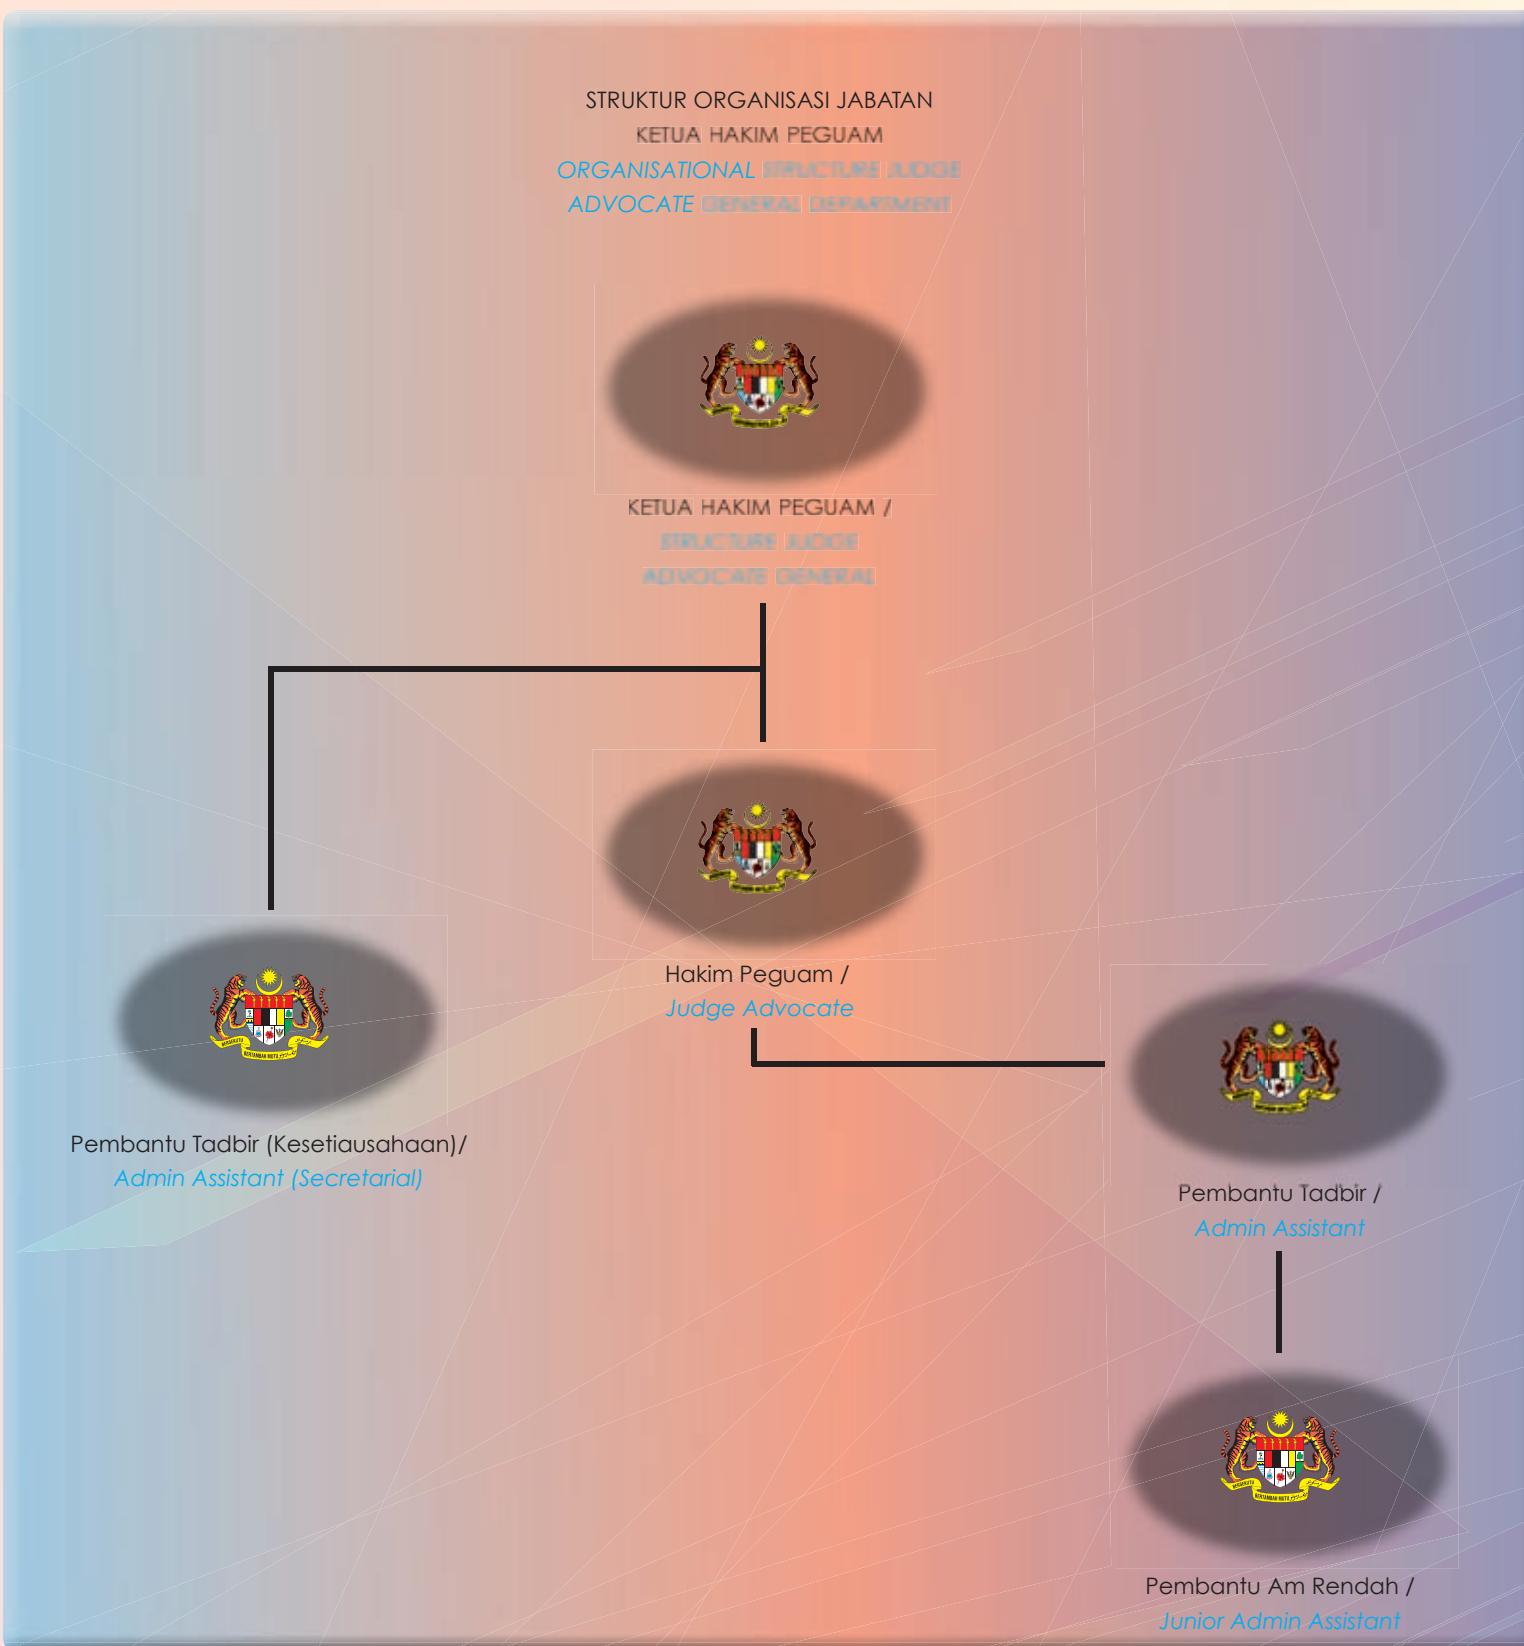

6.2 Theoretically, a Judge Advocate is a person who has qualifications in legal matters appointed by the Judge Advocate General. If the Judge Advocate General fails to appoint a Judge Advocate, the Convention officer can appoint the Judge Advocate. Nevertheless, as practiced currently, a Judge Advocate is a legislative officer seconded from the Attorney General Chamber. The general duties of a Judge Advocate are allocated under the Armed Forces (Court-Martial) Rules of Procedure in 1976. In other words, the Judge Advocate is the legal adviser in a trial of a case at the Court Martial.

6.3 It is the aim of this Department that the cases registered in the Court Martial can be tried and settled in the same year. This is to avoid the 3 year limitation period which leads to injustice to the defendant. Under the Armed Forces (Court Martial) Rules of Procedure in 1976, a soldier accused in the Court Martial cannot be bailed and must be detained.

**JABATAN LATIHAN KHIDMAT NEGARA [JLKN]****STATUS SPKN**

JLKN telah menjalankan aktiviti berkaitan sistem SPKN bagi proses pemilihan berkomputer secara rawak (ballotting) Program Latihan Khidmat Negara bagi siri 8/2010.

Satu majlis pelancaran proses ballotting ini telah diadakan bagi siri 8/2010 iaitu pada 9 Julai 2010 bertempat di auditorium aras 1, Bangunan Zetro di mana senarai nama cetakan bagi 120,000 pelatih terpilih yang lahir pada tahun 1993 telah dijana. Jumlah pecahan mengikut kumpulan yang ditetapkan adalah seramai 42,000 pelatih bagi Kumpulan 1, 60,000 bagi Kumpulan 2 dan 38,000 bagi Kumpulan 3.

- Kemaskini data pelatih – alamat dan maklumat waris pelatih (pelatih bersekolah)

Kaedah baru telah digunakan bagi mempercepatkan proses pengemaskinian maklumat pelatih seperti berikut:

- i. Mewujudkan senarai semak
- ii. Pembahagian PT-PT mengikut zon
- iii. Mewujudkan kod-kod bagi kemasukan data

Hasilnya, pengemaskinian data Pelatih telah meningkat daripada 20% kepada 80% maklumat pelatih bersekolah setakat diterima daripada sekolah-sekolah sebelum proses penempatan dimulakan pada 16 Ogos 2010. Inisiatif ini dijalankan bagi mengurangkan masalah Notis Panggilan Pelatih (NPP) yang tidak sampai ke alamat pelatih sehingga menyebabkan ianya dipulangkan kepada Jabatan (Return to Sender). Baki 20% lagi tidak dapat dikemaskini atas pelbagai faktor seperti surat berserta borang kemaskini maklumat Pelatih tidak sampai ke alamat sekolah dan pihak sekolah lewat/tidak mengembalikan borang tersebut kepada Jabatan.

**Proses Penempatan Pelatih**

**NATIONAL SERVICE TRAINING DEPARTMENT****SPKN STATUS**

The National Service Committee had carried out activities relating to the SPKN system for the National Service Programme random computerized (ballotting) process for the series 8/2010.

A ceremony to launch the balloting process was held for the 8/2010 series on the 9th July 2010 at the Level 1 Auditorium , Zetro Building, where a printed list of names for 120,000 selected participants/ trainees born in 1993 was generated. The total categories according to the set groups were 42,000 trainees for Group 1 and 60,000 for Group 2 and 38,000 for Group 3.

- Updating data of trainees – the address and beneficiary information of trainees (for trainee in school)

A new method was used to make the process of updating trainee's information faster as follows:

- i. Establish a review list
- ii. Division of trainees by zone
- iii. Setting up codes for data entry

As a result, the update of trainees' data has increased from 20% to 80% of information of trainees in school, as at the date the data was received from the schools before the process of placement started on 16th August 2010. This initiative was carried out to reduce the incidences of notices to trainee (NPP) not arriving at the trainee's address leading to the letters being returned to sender. The remaining 20% could not be updated due to various factors such as the form and letter not reaching the school or the school's delay in returning the forms to the Division.

**Trainee Placement Process**

The placement of trainees at the National Service Camps for Groups 1, 2 and 3 Series 7/2010 was carried out successfully with a fraction of the total as follows:-

- Kumpulan 1 – 38,000 pelatih (80 buah kem)
- Kumpulan 2 – 42,000 pelatih (80 buah kem)
- Kumpulan 3 – 40,000 pelatih (80 buah kem)

- Group 1 - 38,000 trainees (80 camps)
- Group 2 - 42,000 trainees (80 camps)
- Group 3 - 40,000 trainees (80 camps)

## ii. Latihan Teknikal dan Vokasional di Institut Latihan Luar

Mulai pengambilan Julai 2010, tajaan untuk permohonan menjalani Latihan Peralihan di luar premis PERHEBAT banyak tertumpu kepada tawaran di Institusi-institusi Latihan Awam seperti Pusat Giat MARA, Institut Latihan Perindustrian, Institut Kemahiran MARA dan Kolej Komuniti. Tindakan ini terpaksa diambil ekoran peruntukan kewangan yang terhad di samping untuk merebut peluang latihan di Institusi-institusi Awam yang disediakan pada kos yang rendah berbanding Penyedia Latihan Swasta. Namun, masih terdapat beberapa permohonan tajaan yang diluluskan secara terpilih di beberapa Penyedia Latihan Swasta khusus untuk bidang tertentu seperti Kursus Sijil Pegawai Keselamatan dan Kesihatan, Keselamatan Gas dan beberapa kursus yang dianjurkan bersama di Kampus Wilayah Sarawak. Bagi tahun 2010, seramai 873 personel bakal pesara telah mengikuti latihan di Institusi Luar dalam bidang Teknikal dan Vokasional.

## ii. Technical and Vocational Training at External Training Institutes

From the July 2010 intake, sponsorship for applications to undergo Transition Training externally, were more focused on training which are offered at Public Training Institutes such as MARA Activity Centre (Pusat Giat Mara), Industrial Training Institutes, MARA Skills Training Institutes and Community Colleges. This was because of limited financial allocation and also to grab the training opportunities offered at public institutions at a lower cost compared to that offered by private training centres. However there are still some applications for sponsorship approved on a selected basis at several Private Training Providers especially for certain fields such as the Gas safety Courses, Health and Safety Officer Certification Courses and other courses jointly organized at the Sarawak Regional Campus. For 2010, as many as 873 Retiring Personnel participated in trainings held at external institutes in the technical and vocational fields.

Majlis Pelancaran The Navy Plan 2010 sebagai Pemangkin Transformasi TLDM  
*Launch of The Navy Plan 2010 as the Catalyst of RMN Transformation*

### PENGURUSAN STRATEGIK

3. TLDM menggunakan the Navy Plan 2010 sebagai Pelan Strategik sepanjang tahun 2010. Pelan Strategik ini merupakan kesinambungan daripada pelaksanaan Sistem Pengurusan Strategik sebelumnya yang dibangunkan berdasarkan metodologi Balanced Scorecard (BSC) yang mula digunakan sejak tahun 2004. The Navy Plan 2010 menggariskan 6 Objektif Strategik seperti berikut:
  - a. Kesiagaan (Preparedness).
  - b. Memperkasakan Kesediaan Sumber (Enhanced Resource Availability).
  - c. Menambah Baik Pengurusan Sumber Manusia (Improve Human Capital Management).
  - d. Menambah Baik Pengurusan Rangkaian Bekalan (Improve Supply Chain Management).
  - e. Menambah Baik Pengurusan Selenggaraan (Improve Maintenance Management).
  - f. Membangunkan Modal Insan (Develop Human Capital).
4. Pencapaian Objektif Strategik ini diukur melalui pencapaian 7 Petunjuk Prestasi Utama atau Key Performance Indicator (KPI) yang telah ditetapkan. Pencapaian secara keseluruhan adalah baik dimana 3 daripada 7 KPI yang ditetapkan berjaya mencapai sasaran ditetapkan, 4 KPI lagi masih belum mencapai sepenuhnya sasaran yang ditetapkan. Inisiatif dan pelan tindak yang komprehensif telah dilaksanakan bagi memastikan segala kelemahan yang dihadapi ditangani dengan efektif dan efisien. Prestasi Pelan Strategik ini dipantau melalui Lembaga Pengurusan Strategik (LPS) TLDM yang dipengerusikan oleh Panglima Tentera Laut sendiri di samping menilai pencapaian Markas Formasi TLDM dari semasa ke semasa.

### TRANSFORMASI TLDM

5. Dalam usaha menyokong Program Transformasi MinDef dan Program Transformasi Kerajaan, TLDM telah memperkenalkan 6 Teras Transformasi seperti berikut:

### STRATEGIC MANAGEMENT

3. RMN used the NAVY PLAN 2010 as its strategic plan during the year 2010. This Strategic Plan is a continuation of the implementation of the Strategic Management System, previously developed based on the Balanced Scorecard method (BSC), which was first used in the year 2004. The Navy Plan 2010 outlined 6 Strategic Objectives as follows:
  - a. Readiness
  - b. Reinforcement of Resource Availability
  - c. Improvement of Human Resource Management
  - d. Improvement of Supply Network Management
  - e. Improvement of Management of Maintenance
  - f. Development of Human Capital
4. The success of these Strategic Objectives is measured by the accomplishment of a set of predetermined 7 Key Performance Indicators. Overall, the performance was good, where 3 out of 7 set KPIs were achieved although 4 KPIs have yet to reach their objectives. Initiatives and comprehensive action plans were carried out to ensure that all challenges faced were handled effectively and efficiently. The performance of the Strategic Plan was monitored through RMN's Strategic Management Board, chaired by the Admiral himself, and also by assessing the performance of RMN Formation Base/HQ from time to time.

### RMN TRANSFORMATION

5. In supporting the MINDEF Transformation programme and the Government Transformation Programme, RMN had introduced 6 Core Principles of Transformation being:

- a. Sikap.
  - b. Penambahbaikan Proses.
  - c. Kecekapan dan Profesionalisme.
  - d. Kepatuhan kepada Peraturan dan Arahan.
  - e. Integriti.
  - f. Inisiatif Penjimatan.
6. TLDM sebagai sebuah perkhidmatan yang ingin menggapai status tentera laut bertaraf dunia, telah mengambil langkah proaktif melaksanakan transformasi ke arah mempertukarkan TLDM. Transformasi ini perlu bagi memperkuatkan TLDM seiring dengan kemajuan negara dengan menganjukkan lagi keberkesanan perkhidmatan ke tahap yang lebih tinggi. TLDM telah mula mengorak langkah dalam memacu agenda Transformasi TLDM melalui pengenalan Nilai Teras TLDM yang baru iaitu Kemuliaan (Honour), Kesetiaan (Loyalty), Keberanian (Courage) dan Kebanggaan (Pride). Pengenalan nilai teras yang baru ini diyakini dapat menambah baik sikap, tahap disiplin dan integriti warga TLDM. Inisiatif penjimatan dan perbelanjaan berhemah yang turut dilaksanakan secara menyeluruh dalam TLDM juga turut menampakkan hasilnya. Pelaksanaan program TLDM dapat diteruskan dan tidak tergugat walaupun berbagai langkah penjimatan telah diambil. Usaha yang berterusan dan komitmen tinggi daripada seluruh warga TLDM menjadi faktor kejayaan utama dalam usaha mentransformasikan TLDM.

#### KECEMERLANGAN OPERASI

7. Kecemerlangan operasi TLDM dapat dilihat daripada aspek kemampuan TLDM melaksanakan misinya iaitu Menjaga Kedaulatan dan Kepentingan Maritim Malaysia. Tahun 2010 telah melakar satu lagi sejarah dengan pengoperasian Skuadron Kapal Selam di dalam TLDM. Ketibaan KAPAL DIRAJA TUN RAZAK pada 2 Julai 2010 di Pangkalan TLDM Lumut setelah melaksanakan pelayaran selama 63 hari dari Toulon, Perancis ke Malaysia, membuktikan TLDM dan warganya berkeupayaan dalam mengoperasi kapal selam yang merupakan aset berteknologi tinggi.

- a. Attitude.
- b. Process Improvement.
- c. Efficiency and Professionalism.
- d. Compliance of Rules and Directions.
- e. Integrity.
- f. Cost Initiatives.

6. RMN as a service provider determined to reach the status of a world class naval force, had taken proactive steps to carry out the transformation process to enhance its status. This transformation is necessary to strengthen RMN in line with the nation's progress, by increasing its service efficiency to a higher level. RMN had commenced the Transformation Agenda through the introduction of the new RMN Core Values such as Honour, Loyalty, Courage and Pride/Glory. Continued efforts and a high level of commitment from all RMN citizens were the main factors behind the successful transformation of RMN.

2. Bagi operasi dalam negara, setakat ini, MK AB hanya bertanggungjawab terhadap pelaksanaan OP PASIR sahaja. Operasi ini melibatkan gabungan trup dan aset dari ketiga-tiga Perkhidmatan. Selain itu MK AB juga bertanggungjawab untuk merancang, mengkoordinasi dan mengendalikan semua operasi dan eksesais bersama, bersepada dan gabungan yang melibatkan dua atau lebih dalam Perkhidmatan. Ia juga berperanan untuk menyelaraskan keperluan penglibatan ATM dalam operasi dan misi PBB.

#### PELAKSANAAN AKTIVITI TAHUN 2010

Walau bagaimanapun, Angkatan Tentera Malaysia (ATM) masih menjalankan operasi di perbatasan negara maupun luar negara yang melibatkan aset dari ketiga-tiga perkhidmatan ATM. Operasi dan aktiviti dalam dan luar negara yang dilaksanakan bersama sepanjang tahun 2010 seperti berikut:

##### a. Operasi Dalam Negara

(1) OP PASIR. Ekoran 2 kes penculikan yang berlaku di perairan Timur Sabah, kabinet telah mengarahkan pasukan Tentera Darat untuk diaturgerakkan ke semua pulau dan resort di Timur Sabah dan OP PASIR telah dikuatkuasakan pada 18 Sep. 2000. ## JOINT TASK FORCE

#### INTRODUCTION

1. *The Joint Forces Command (MK AB) was set up officially on the 16th July 2007 to handle all joint operations involving two or more services in the Malaysian Armed Forces. The concept of Assigned Forces emphasises the support by each service for all joint operations and trainings conducted by the Joint Forces by placing the battle components and service aids under the rule and operational control of the Commander in Chief of Joint Forces Command.*

2. *In respect of domestic operations, to date the MK AB has only been responsible for OPS PASIR. This operation involved a combination of troops and assets from all three Services. In addition, the MK AB is also responsible for planning, coordinating and handling all joint, integrated, and combined operations and exercises which involved two or more branches of Services. It is also responsible for standardising the requirement of MAF Involvement in UN operations and missions.*

#### IMPLEMENTATION OF ACTIVITIES 2010

3. *As a whole, the level of security of the country is good and under control. However the MAF continue to undertake operations on the nation's borders and overseas, involving the assets of all three branches of services of MAF. The operations and activities conducted in the year 2010 were as follows:*

##### a. Domestic Operations

*(1) OPS PASIR. Following the two kidnap cases which occurred off the Sabah coastal waters, the Cabinet had directed the Military to be dispatched to all islands and resorts of East Sabah, and OPS PASIR was enforced on the 18th September 2000. The code "PASIR" which was used for the operation was derived from the location of the kidnapping which was at the Pandanan and*

gerak trup TD menduduki dan menguasai 31 penempatan strategik iaitu 22 penempatan di 20 buah pulau dan 9 penempatan di persisiran pantai. OPS PASIR mempunyai 2 sektor iaitu Sektor Utara dan Sektor Selatan merangkumi kawasan persisiran pantai dan perairan Timur Sabah.

- (2) Op SETIA BERSEPADU. OP SETIA BERSEPADU yang dilancarkan pada 12 Okt. 09 adalah bertujuan untuk melaksanakan operasi bersepadu antara semua Agensi Pengkuatkuasaan Keselamatan khususnya di kawasan perairan Pantai Timur Sabah dan Laut Sulawesi. Agensi Pengkuatkuasaan Keselamatan yang terlibat adalah Unit Udara dan Marin Polis Diraja Malaysia (PDRM), Agensi Pengkuatkuasaan Maritim Malaysia (APMM) dan ATM. Walau bagaimanapun, Operasi yang telah dirancang untuk tahun 2010 tidak dapat dilaksanakan disebabkan isu perundangan yang melibatkan ATM. Satu Mesyuarat yang dianjurkan oleh MKN pada 13 Dis. 10 telah memutuskan bahawa ATM mempunyai kuasa di bawah Akta Keselamatan Dalam Negeri bagi melaksanakan tugas OP PASIR dan OP SETIA BERSEPADU.

Selanjutnya, Mesyuarat Penyelaras dan Penyediaan Prosedur Tetap (PROTAP) OP SETIA BERSEPADU telah diadakan di MKN, Putrajaya dan

*Sipadan Island Resort. At present, the MK ATB 2 had deployed the Army Troops to occupy and control 31 strategic settlements being 22 settlements on 20 islands and 9 along the coast. The OPS PASIR had two sectors, the Northern Sector and the Southern Sector, ranging over the beach and waters of East Sabah.*

- (2) OPS SETIA BERSEPADU. OP SETIA BERSEPADU was launched on the 12th October 2009 and had the aim of initiating an integrated operation between all Security Enforcement Agencies especially in the coastal waters of East Sabah and the Sulawesi Sea. The agencies involved were the Air Unit and Royal Malaysian Marine Police (PDRM), The Malaysian Maritime Enforcement Agency (APMM) and the MAF. However, the operation planned for the year 2010 could not proceed due to legal issues involving the MAF. At a meeting organised by the MKN on the 13th December 2010 it was decided that the MAF was empowered under the Internal Security Act to conduct the OPS PASIR and OPS SETIA BERSEPADU.*

*Subsequently, the Meeting for the Coordination and Preparation of Set Procedures (PROTAP) for OPS SETIA BERSEPADU was held at the MKN, Putrajaya,*

telah disiapkan serta sedang dalam semakan Bahagian Undang-Undang MKN untuk kelulusan. Ianya akan dicetak dan diedarkan oleh MKN sebagai Provisional kepada yang berkenaan serta akan diuji pada operasi akan datang.

- b. Operasi Luar Negara (Misi PBB). Kehadiran ATM dalam penugasan di bawah panji-panji PBB semakin dirasai dunia dan penglibatan anggota ATM telah menaikkan imej ATM khususnya dan negara amnya.
- (1) Penugasan yang telah diaturgerakkan dalam misi di luar negara dan penglibatan keanggotaan adalah seperti berikut:
- (2) Malaysian Medical Unit (MMU). Sejarah penglibatan Malaysian Medical Unit (MMU) di Sahara Barat bermula pada tahun 2006 apabila Malaysia telah dipilih untuk menggantikan Pasukan Perubatan Korea Selatan (KMU) yang menamatkan misi setelah berkhidmat selama 12 tahun mulai 1994 sehingga 2006. PBB telah memilih Malaysia disebabkan faktor profesionalisme pasukan perubatan Angkatan Tentera Malaysia yang pernah berkhidmat dengan cemerlang dalam misi-misi kemanusiaan di luar negara seperti Pakistan dan Aceh.

MMU 1 yang diketuai oleh Lt Kol (Dr) Adnan bin Abdullah bersama 7 orang Pegawai Perubatan, seorang Pegawai Pergigian, Seorang Pegawai Tadbir dan 11 anggota lain-lain pangkat telah ditugaskan untuk jangka masa 6 bulan bermula 8 Mei 2006 hingga 8 November 2006.
