## OP MURNI: TUDM LAKSANA TINJAUAN UDARA DALAM MEMBANTU 54 KELUARGA KOMUNITI ORANG ASLI TEMUAN YANG TERPUTUS HUBUNGAN

Hulu Langat, 3 Januari 2022 - Berlanjutan dari kejadian banjir yang melanda negara pada Disember yang lalu, terdapat kira-kira 300 orang terdiri daripada 54 keluarga orang asli Temuan yang tinggal di atas Genting Peras telah terputus hubungan jalan darat kerana kejadian tanah runtuh yang menghalang jalan dan berisiko tinggi untuk dilalui.

Terdapat lebih kurang 20 runtuhan yang berlaku di sekitar Genting Peras iaitu di laluan sebelah Hulu Langat dan Kuala Klawang.

Bantuan awal keperluan makanan asas semasa awal kejadian banjir berlaku telah disalurkan melalui jalan darat oleh para sukarelawan dengan urusan membawa bantuan makanan tersebut dilakukan oleh kumpulan malim gunung.

Berikutan banyak kawasan tanah runtuh, proses membuka laluan oleh jentera berat jentolak oleh pihak JKR agak mengambil masa kerana runtuhan tanah dan batu besar serta lumpur tebal menyelubungi jalan.

Jarak ke perkampungan orang asli Temuan dalam jarak lebih kurang 3.5 km telah terhalang oleh tanah runtuh.

Malim gunung terpaksa berjalan sejauh 3.5 km membawa barang makanan asas termasuk minyak diesel (bagi kegunaan jenerator yang disalurkan oleh penyumbang dan beberapa Badan Bukan Kerajaan atau NGO).

Setiap seorang terpaksa membawa naik dalam anggaran 30kg usungan setiap trip yang mengambil masa lebih kurang dua jam dan mereka perlu melakukan dua atau tiga trip sehari.

Atas dasar keprihatinan TUDM, Markas Pemerintahan Operasi Udara yang diketuai oleh AKS A3 – MPOU, Kolonel Norazman bin Ismail TUDM pada 28 Disember 2021 telah turun ke lokasi dan membuat tinjauan laluan darat ke Genting Peras. Beliau telah berjumpa dengan Puan Norazila, Pegawai JAKOA - Jabatan Kemajuan Orang Asli; Encik Umbuh iaitu Tok Batin Genting Peras; Tuan Shahril iaitu Peg Bomba Hulu Langat dan Tuan Aslanz selaku Ketua Ekspedisi Malim Gunung bagi berbincang tentang bentuk bantuan yang boleh TUDM salurkan bagi memudahkan penghantaran bantuan kepada orang asli yang terjejas di atas Genting Peras.

Di samping itu untuk melihat sendiri keadaan jalan yang tertimbus oleh runtunan tanah banjir serta membantu menyampaikan dan berkongsi maklumat kepada agensi-agensi awam seperti pihak JPS, Bomba, JKR, TNB dan JAKOA sendiri.

Seterusnya pada 29 Disember 2021, beliau dan anggota MPOU dibantu oleh No. 10 Skn telah membuat tinjauan udara dengan menggunakan helikopter EC725 AP di sekitar kawasan yang terkesan.

Hasil tinjauan udara mendapati terdapat lebih kurang lapan runtunan tanah besar di laluan Hulu Langat ke Genting Peras dan lebih kurang enam (6) runtunan tanah yang menutupi jalan di laluan Kuala Klawang ke Genting Peras.

Dari tinjauan udara tersebut di dapati runtunan terdekat adalah di laluan Kuala Klawang ke Genting Peras iaitu laluan berjalan kaki ke perkampungan hanyalah lebih kurang 1.6 km sahaja jaraknya. Maklumat-maklumat telah disampaikan kepada pihak JKR dan TNB, di mana agensi berkenaan telah membuka laluan melalui jalan Kuala Klawang.

Hasil usaha bersepadu, pada 31 Disember 2021, pihak TNB telah dapat menghidupkan semula janakuasa elektrik kepada penduduk di perkampungan Genting Peras.

Kolaborasi bersepadu dan bantuan logistik demi kesejahteraan rakyat diteruskan oleh TUDM bagi membantu masyarakat yang terkesan dalam bencana banjir dengan dibantu oleh semua pihak dapat melaksanakan bantuan-bantuan yang perlu.

## **OP MURNI: RMAF CONDUCTS AERIAL SURVEY TO ASSIST 54 STRANDED ORANG ASLI COMMUNITY**

HULU LANGAT, January 3, 2022 – Following the floods that struck our nation in December, around 300 individuals, consisting of 54 Temuan indigenous families residing in Genting Peras, have lost road access. This occurred as a result of landslides that obstructed roads and posed a significant risk to passage.

There are about 20 landslides that occurred around Genting Peras on the route next to Hulu Langat and Kuala Klawang.

During the early floods, volunteers channelled food supplies by road, with a group of mountain guides coordinating the delivery of the food assistance.

Due to landslides, the procedure of paving the road using heavy machinery bulldozers by the Public Works Department was time-consuming because of the many landslides, big rocks, and deep mud covering the route.

Landslides have obstructed the roughly 3.5-kilometre journey to the orang asli settlement of Temuan.

The mountain guide had to walk 3.5 kilometres carrying essential supplies and diesel fuel for the use of generators, donated by contributors and some non-governmental organisations (NGOs).

Each person had to carry an estimated 30kg load per trip, which took around two hours, and they had to make two or three trips per day.

As a sign of concern, the Air Operations Command Headquarters, led by AKS A3-MPOU, Colonel Norazman bin Ismail RMAF, visited the impacted areas to see the land route to Genting Peras on December 28, 2021. He met with Mrs. Norazila, JAKOA Officer-Department of Orang Asli Development; Mr. Umbuh, Genting Peras Tok Batin; Hulu Langat Fire Rescue Officer; Mr. Shahril and Mr. Aslanz, as Head of the Mountain Navigator Expedition, in which they will outline the type of assistance RMAF can channel to facilitate the delivery of aid to the affected orang asli on Genting Peras.

It was also to firsthand examine the condition of roads that were covered by landslides and floods, as well as to assist in the transmission and sharing of information with public agencies such as the DID, Fire Department, JKR, TNB, and JAKOA itself.

Following that, on December 29, 2021, he and MPOU members conducted aerial surveys using EC725 AP helicopters across the impacted areas with the assistance of No. 10 Sqn.

**BERITA PORTAL RASMI KEMENTERIAN PERTAHANAN**

The aerial survey discovered about eight (8) massive landslides on the Hulu Langat to Genting Peras route and about six (6) landslides that blocked the road on the Kuala Klawang to Genting Peras route.

Based on the aerial survey, it was found that the nearest landslide is on the route from Kuala Klawang to Genting Peras, which is the main walking route to the village, and is only about 1.6 km away. The information was passed on to JKR and TNB, who have since made a route through Kuala Klawang.

As a result of a joint effort, on December 31, 2021, TNB was able to reactivate the electricity generator for the residents of Genting Peras village.

The RMAF continues to provide integrated collaboration and logistical support for the welfare of the people with the help of all parties in order to assist the flood-affected community in implementing any essential assistance.

## ATM BERDIRI TEGUH, KEKAL SEBAGAI BENTENG UTAMA PERTAHANAN NEGARA

KUALA LUMPUR, 24 Januari 2022 - Panglima Angkatan Tentera, Jeneral Tan Sri Dato' Sri Hj. Affendi bin Buang TUDM telah menyampaikan Amanat Tahun Baharu 2022 di Auditorium Kementerian Pertahanan, hari ini.

Melalui amanat beliau yang disiarkan secara langsung di formasi-formasi setiap perkhidmatan ATM, beliau telah menekankan beberapa perkara yang meliputi rumusan tahun 2021 dan keutamaan bagi tahun 2022.

Sepanjang tahun 2021, ATM telah meletakkan sepenuh usaha dalam menangani ancaman pandemik COVID-19 dan yang paling signifikan adalah aturgerak hospital medan ketika sistem kesihatan negara hampir lumpuh serta kelancaran program vaksinasi kebangsaan sehingga membolehkan inisiatif Program Pemulihan Negara dapat direalisasikan. Tahun 2021 juga menyaksikan kesiapsiagaan yang tinggi apabila ATM menjadi responden terawal bagi menyelamatkan mangsa banjir dan khidmat ini diteruskan dengan membantu melaksanakan pembersihan kawasan serta baik pulih kediaman yang musnah akibat bencana tersebut.

"Semua perkara yang telah dilakukan ini adalah usaha kita bersama. Setiap dari anda memainkan peranan dengan baik dalam memastikan pelaksanaan operasi ketenteraan selain peperangan atau Military Operation Other Than War (MOOTW) dapat dioptimumkan dengan efisien dan efektif" ujar beliau.

Disebalik tumpuan terhadap memenuhi tugas-tugas sekunder ini, ATM tetap meneruskan tugas utamanya bagi memastikan keselamatan dan kedaulatan negara dilindungi dari sebarang ancaman musuh, di samping perancangan pelan pembangunan angkatan terus diperkasakan dalam memastikan Angkatan Masa Hadapan yang seimbang (balance force) dapat dimaktubkan. Ini menyaksikan beberapa aset ketenteraan telah dimasukkan dalam inventori ATM bagi tahun 2021 dengan perolehan aset-aset ini dibuat secara tersusun dan berperingkat bagi mengoptimumkan peruntukan kewangan yang terhad yang diterima setiap tahun.

Tahun 2021 juga, ATM turut memberi penekanan terhadap kebajikan warga terutamanya dalam usaha memastikan setiap warga ATM bersedia bagi menjalani kehidupan setelah bersara kelak. Perkara yang sama turut diberikan perhatian kepada para Veteran ATM melalui peranan Jabatan Hal Ehwal Veteran (JHEV) dengan beberapa inisiatif baharu telah diusahakan bagi membantu menambahbaik kualiti hidup para Veteran ATM.

Beliau juga menyatakan banyak kejayaan yang dicapai sepanjang tahun 2021 dan rakyat kini menunjukkan kepercayaan yang tinggi untuk bergantung harap terhadap keupayaan ATM. "Mereka yakin bahawa khidmat yang diberikan oleh anggota tentera bukan sahaja berkesan, malah ianya lebih dari itu kerana anggota tentera sanggup berkorban apa sahaja demi kepentingan negara. Keadaan ini merupakan suatu indikator penting buat kita kerana ianya membuktikan bahawa segala khidmat bakti yang telah dicurahkan selama ini tidaklah disia-siakan begitu sahaja. Sekali lagi, syabas saya ucapkan kepada anda semua!". Ujar beliau lagi.

Menyingkap amanat bagi tahun 2022 ini juga, beliau turut optimis bahawa tahun ini akan menjadi tahun pemulihan buat semua di mana segala usaha untuk memastikan tradisi dan legasi terdahulu dapat diteruskan setelah tergendala akibat ketidaktentuan yang dibawa oleh pandemik COVID-19.

Menjadi keutamaan pertama bagi tahun 2022 ini adalah untuk meneruskan 4 teras sepertimana yang termaktub dalam Perintah Ulung beliau iaitu Memperkasakan Kesiagaan Aset ATM, Memperkasa Warga ATM Yang Cemerlang, Mengukuhkan Keupayaan ATM dalam Domain Siber dan Menterjemahkan Kertas Putih Pertahanan. Teras-teras ini harus dijadikan sebagai panduan strategik dalam merealisasikan hasrat menjadikan Angkatan Tentera Malaysia sebagai sebuah angkatan berspektrum penuh yang holistik dan mampan.

Keutamaan kedua adalah memastikan pengurusan peruntukan kewangan yang diterima dibelanjakan dengan sebijak-bijaknya melalui perbelanjaan yang berhemah agar peruntukan yang diberikan dapat dibelanjakan secara holistik serta berdasarkan keperluan sebenar yang diigini.

Keutamaan ketiga yang ditekankan adalah dokumen Strategi Ketenteraan Negara 2.0 dan 4DMAF dapat dilancarkan pada tahun ini. Kedua-dua dokumen ini haruslah difahami kerana ianya akan menjadi rujukan utama dalam meneruskan agenda pembangunan angkatan sepertimana yang telah dihasratkan di dalam Kertas Putih Pertahanan.

“Dalam menjayakan ketiga-tiga keutamaan ini, kita semua tidak boleh lagi mengamalkan business as usual. Dengan peralihan kepada fasa endemik dan juga ancaman persekitaran geostrategik global dan serantau yang semakin kompleks serta ancaman Bukan Kinetik yang boleh berlaku pada sebilang masa, kita harus bersikap lebih realistik untuk terus bergerak ke hadapan. Cara kita berfikir dan cara kita melihat kepada sesuatu perkara atau keperluan perlu diubah bagi memastikan kehendak situasi semasa dapat dipenuhi” tegas beliau lagi.

Dalam pada itu beliau turut mengaskan kan kepentingan memastikan struktur rangkaian pemerintahan diperkasa sewajarnya dan di masa yang sama segala Rancangan Kontigensi (RANKON) sedia ada harus diperkemaskini dan difahami agar ATM dapat memberikan respon yang cepat dan tepat apabila keadaan memerlukan. Disamping itu, operasi-operasi kawalan dan pemantauan di sempadan darat dan lautan negara, sama ada yang sedang dilaksanakan oleh perkhidmatan mahupun di bawah koordinasi National Task Force wajar diberikan keutamaan berterusan.

Di akhir penyampaian amanat, beliau menyatakan agar semua peringkat dapat bermuhasabah diri dalam setiap perkara yang telah dilakukan sepanjang tahun 2021 yang lalu agar dapat meneruskan tahun 2022 ini dengan lebih baik di samping menunaikan tanggungjawab menjaga hubungan dengan Sang Pencipta (Hablum Min Allah) dan juga hubungan sesama manusia (Hablum Minan Nas) pada setiap masa.

## **ON THE FRONT LINES, MALAYSIAN ARMED FORCES REMAIN STRONG AS NATIONAL DEFENCE**

KUALA LUMPUR, January 24, 2022 - The Chief of the Malaysian Armed Forces, General Tan Sri Dato' Sri Hj. Affendi bin Buang RMAF delivered the New Year Mandate 2022 at the Defence Ministry Auditorium, here today.

In his speech, he highlighted key points pertaining to the 2021 summaries and the priorities set for the year 2022, which were broadcast to all Malaysian Armed Forces formations.

Throughout 2021, MAF has planned every measure to combat COVID-19, and major efforts are reflected in the setting up of field hospitals to support the national health system, which was on the verge of collapse, as well as administering the national vaccination programme to fulfil Malaysia's National Recovery Council. Also, in the year 2021, MAF demonstrated a high

degree of alertness by responding quickly to rescue people during the recent flood disaster. Their efforts continued by assisting flood victims with their post-flood cleaning, as well as repairing some severely damaged houses.

"All of these are our joint efforts. Everyone has played a vital part in ensuring that the Military Operation Other Than War (MOOTW) is carried out efficiently and effectively," he said.

Despite the focus on fulfilling these secondary tasks, the MAF continues its primary task of ensuring our national security and sovereignty are protected from any threats, as well as developing plans for military enhancement in order to produce a balanced force of our soldiers. This included the addition of military assets in the MAF 2021 inventory, which were acquired on an orderly and phased basis in order to fully optimise the limited financial allocation available each year.

In 2021, the MAF also prioritised the welfare of its members, especially in an effort to ensure that every MAF personnel is prepared for life after retirement. The Department of Veterans Affairs (JHEV) is also paying attention to MAF veterans, with several new initiatives being implemented which aimed at improving their quality of life.

He also mentioned the accomplishments made in 2021 and how people are now having a greater sense of confidence in the MAF's capabilities. They believe that the military's services are not only effective but know how willing the troops are to put their lives on the line for their nation. This situation is a significant indicator because it proves that all of the services delivered thus far have not been squandered. "Once again, congratulations to everyone!" He said again.

In presenting the 2022 mandate, he is optimistic that this year will be the year of recovery, with all efforts focused on ensuring that traditions and legacies may continue after being affected by the COVID-19 uncertainties.

In keeping with tradition, the main objective for 2022 is to maintain the four main thrusts outlined in his superior order, namely: amplifying the preparedness and alertness of MAF assets; empowering MAF personnel; enhancing MAF cyber capabilities; and implementing the Defence White Paper. The said thrusts should serve as strategic guides in order to develop a holistic and full-spectrum defence force.

The next priority is to ensure that the capital allocation received is managed properly and prudently so that the allocation may be spent in accordance with the actual needs and priorities.

Besides that, the third priority is to launch the National Military Strategy 2.0 document and 4DMAF. Both of these documents should be thoroughly understood since they will be the primary references in implementing the force development strategy outlined in the Defence White Paper.

KEMENTERIAN PERTAHANAN

MALAYSIA

**BERITA PORTAL RASMI KEMENTERIAN PERTAHANAN**

To achieve these three priorities, we need to change our usual practice. With the transition to the endemic phase and the more complex challenges of the regional and global geostrategic situation, as well as non-kinetic threats that may occur at any time, we must be more realistic to keep moving forward. "We need to reconstruct our thinking and perceptions towards certain things and wants in order to meet the demands of the current circumstances," he emphasised.

In addition, he emphasised the significance of ensuring the governance structure is enhanced accordingly, along with updating and comprehending the Contingency Plans (RANKON) to ensure that the MAF can rapidly and effectively respond when the needs come. Also, control and monitoring operations along our land and sea borders should continue to be prioritised, which are either conducted by the responsible force or under the guidance of the National Task Force.

He concluded his speech by reminding all parties to reflect on all that has been accomplished in 2021 in order to strive for excellence in 2022, as well as to fulfil our responsibility in maintaining our relationship with the Creator (Hablum MinAllah) and with one another (Hablum MinanNas) at all times.
