Terdapat lebih kurang 20 runtuhan yang berlaku di sekitar Genting Peras iaitu di laluan sebelah Hulu Langat dan Kuala Klawang.

Bantuan awal keperluan makanan asas semasa awal kejadian banjir berlaku telah disalurkan melalui jalan darat oleh para sukarelawan dengan urusan membawa bantuan makanan tersebut dilakukan oleh kumpulan malim gunung.

Berikutan banyak kawasan tanah runtuh, proses membuka laluan oleh jentera berat jentolak oleh pihak JKR agak mengambil masa kerana runtuhan tanah dan batu besar serta lumpur tebal menyelubungi jalan.

Jarak ke perkampungan orang asli Temuan dalam jarak lebih kurang 3.5 km telah terhalang oleh tanah runtuh.

Malim gunung terpaksa berjalan sejauh 3.5 km membawa barang makanan asas termasuk minyak diesel (bagi kegunaan jenerator yang disalurkan oleh penyumbang dan beberapa Badan Bukan Kerajaan atau NGO.

Setiap seorang terpaksa membawa naik dalam anggaran 30kg usungan setiap trip yang mengambil masa lebih kurang dua jam dan mereka perlu melakukan dua atau tiga trip sehari.

Atas dasar keprihatinan TUDM, Markas Pemerintahan Operasi Udara yang diketuai oleh AKS A3 – MPOU, Kolonel Norazman bin Ismail TUDM pada 28 Disember 2021 telah turun ke lokasi dan membuat tinjauan laluan darat ke Genting Peras. Beliau telah berjumpa dengan Puan Norazila, Pegawai JAKOA - Jabatan Kemajuan Orang Asli; Encik Umbuh iaitu Tok Batin Genting Peras; Tuan Shahril iaitu Peg Bomba Hulu Langat dan Tuan Aslanz selaku Ketua Ekspedisi Malim Gunung bagi berbincang tentang bentuk bantuan yang boleh TUDM salurkan bagi memudahkan penghantaran bantuan kepada orang asli yang terjejas di atas Genting Peras.

Di samping itu untuk melihat sendiri keadaan jalan yang tertimbus oleh runtunan tanah banjir serta membantu menyampaikan dan berkongsi maklumat kepada agensi-agensi awam seperti pihak JPS, Bomba, JKR, TNB dan JAKOA sendiri.

Seterusnya pada 29 Disember 2021, beliau dan anggota MPOU dibantu oleh No. 10 Skn telah membuat tinjauan udara dengan menggunakan helikopter EC725 AP di sekitar kawasan yang terkesan.

Hasil tinjauan udara mendapati terdapat lebih kurang lapan runtunan tanah besar di laluan Hulu Langat ke Genting Peras dan lebih kurang enam (6) runtunan tanah yang menutupi jalan di laluan Kuala Klawang ke Genting Peras.

Dari tinjauan udara tersebut di dapati runtunan terdekat adalah di laluan Kuala Klawang ke Genting Peras iaitu laluan berjalan kaki ke perkampungan hanyalah lebih kurang 1.6 km sahaja jaraknya. Maklumat-maklumat telah disampaikan kepada pihak JKR dan TNB, di mana agensi berkenaan telah membuka laluan melalui jalan Kuala Klawang.

Hasil usaha bersepadu, pada 31 Disember 2021, pihak TNB telah dapat menghidupkan semula janakuasa elektrik kepada penduduk di perkampungan Genting Peras.

Kolaborasi bersepadu dan bantuan logistik demi kesejahteraan rakyat diteruskan oleh TUDM bagi membantu masyarakat yang terkesan dalam bencana banjir dengan dibantu oleh semua pihak dapat melaksanakan bantuan-bantuan yang perlu.

OP MURNI: RMAF CONDUCTS AERIAL SURVEY TO ASSIST 54 STRANDED ORANG ASLI COMMUNITY

HULU LANGAT, January 3, 2022 – Following the floods that struck our nation in December, around 300 individuals, consisting of 54 Temuan indigenous families residing in Genting Peras, have lost road access. This occurred as a result of landslides that obstructed roads and posed a significant risk to passage.

There are about 20 landslides that occurred around Genting Peras on the route next to Hulu Langat and Kuala Klawang.

During the early floods, volunteers channelled food supplies by road, with a group of mountain guides coordinating the delivery of the food assistance.

Due to landslides, the procedure of paving the road using heavy machinery bulldozers by the Public Works Department was time-consuming because of the many landslides, big rocks, and deep mud covering the route.

Landslides have obstructed the roughly 3.5-kilometre journey to the orang asli settlement of Temuan.

The mountain guide had to walk 3.5 kilometres carrying essential supplies and diesel fuel for the use of generators, donated by contributors and some non-governmental organisations (NGOs).

Each person had to carry an estimated 30kg load per trip, which took around two hours, and they had to make two or three trips per day.

As a sign of concern, the Air Operations Command Headquarters, led by AKS A3-MPOU, Colonel Norazman bin Ismail RMAF, visited the impacted areas to see the land route to Genting Peras on December 28, 2021. He met with Mrs. Norazila, JAKOA Officer-Department of Orang Asli Development; Mr. Umbuh, Genting Peras Tok Batin; Hulu Langat Fire Rescue Officer; Mr. Shahril and Mr. Aslanz, as Head of the Mountain Navigator Expedition, in which they will outline the type of assistance RMAF can channel to facilitate the delivery of aid to the affected orang asli on Genting Peras.

It was also to firsthand examine the condition of roads that were covered by landslides and floods, as well as to assist in the transmission and sharing of information with public agencies such as the DID, Fire Department, JKR, TNB, and JAKOA itself.

Following that, on December 29, 2021, he and MPOU members conducted aerial surveys using EC725 AP helicopters across the impacted areas with the assistance of No. 10 Sqn.

BERITA PORTAL RASMI KEMENTERIAN PERTAHANAN

The aerial survey discovered about eight (8) massive landslides on the Hulu Langat to Genting Peras route and about six (6) landslides that blocked the road on the Kuala Klawang to Genting Peras route.

Based on the aerial survey, it was found that the nearest landslide is on the route from Kuala Klawang to Genting Peras, which is the main walking route to the village, and is only about 1.6 km away. The information was passed on to JKR and TNB, who have since made a route through Kuala Klawang.

As a result of a joint effort, on December 31, 2021, TNB was able to reactivate the electricity generator for the residents of Genting Peras village.

The RMAF continues to provide integrated collaboration and logistical support for the welfare of the people with the help of all parties in order to assist the flood-affected community in implementing any essential assistance.

GUA MUSANG, January 10, 2022 – The Royal Malaysian Air Force (RMAF) has mobilised their EC725 AP Helicopter from No. 10 Squadron to deliver food supplies to several Orang Asli communities around Gua Musang, Kelantan.

ATM BERDIRI TEGUH, KEKAL SEBAGAI BENTENG UTAMA PERTAHANAN NEGARA

KUALA LUMPUR, 24 Januari 2022 - Panglima Angkatan Tentera, Jeneral Tan Sri Dato' Sri Hj. Affendi bin Buang TUDM telah menyampaikan Amanat Tahun Baharu 2022 di Auditorium Kementerian Pertahanan, hari ini.

Melalui amanat beliau yang disiarkan secara langsung di formasi-formasi setiap perkhidmatan ATM, beliau telah menekankan beberapa perkara yang meliputi rumusan tahun 2021 dan keutamaan bagi tahun 2022.

Sepanjang tahun 2021, ATM telah meletakkan sepenuh usaha dalam menangani ancaman pandemik COVID-19 dan yang paling signifikan adalah aturgerak hospital medan ketika sistem kesihatan negara hampir lumpuh serta kelancaran program vaksinasi kebangsaan sehingga membolehkan inisiatif Program Pemulihan Negara dapat direalisasikan. Tahun 2021 juga menyaksikan kesiapsiagaan yang tinggi apabila ATM menjadi responden terawal bagi menyelamatkan mangsa banjir dan khidmat ini diteruskan dengan membantu melaksanakan pembersihan kawasan serta baik pulih kediaman yang musnah akibat bencana tersebut.

"Semua perkara yang telah dilakukan ini adalah usaha kita bersama. Setiap dari anda memainkan peranan dengan baik dalam memastikan pelaksanaan operasi ketenteraan selain peperangan atau Military Operation Other Than War (MOOTW) dapat dioptimumkan dengan efisien dan efektif" ujar beliau.

Disebalik tumpuan terhadap memenuhi tugas-tugas sekunder ini, ATM tetap meneruskan tugas utamanya bagi memastikan keselamatan dan kedaulatan negara dilindungi dari sebarang ancaman musuh, di samping perancangan pelan pembangunan angkatan terus diperkasakan dalam memastikan Angkatan Masa Hadapan yang seimbang (balance force) dapat dimaktubkan. Ini menyaksikan beberapa aset ketenteraan telah dimasukkan dalam inventori ATM bagi tahun 2021 dengan perolehan aset-aset ini dibuat secara tersusun dan berperingkat bagi mengoptimumkan peruntukan kewangan yang terhad yang diterima setiap tahun.

Tahun 2021 juga, ATM turut memberi penekanan terhadap kebajikan warga terutamanya dalam usaha memastikan setiap warga ATM bersedia bagi menjalani kehidupan setelah bersara kelak. Perkara yang sama turut diberikan perhatian kepada para Veteran ATM melalui peranan Jabatan Hal Ehwal Veteran (JHEV) dengan beberapa inisiatif baharu telah diusahakan bagi membantu menambahbaik kualiti hidup para Veteran ATM.

Beliau juga menyatakan banyak kejayaan yang dicapai sepanjang tahun 2021 dan rakyat kini menunjukkan kepercayaan yang tinggi untuk bergantung harap terhadap keupayaan ATM. "Mereka yakin bahawa khidmat yang diberikan oleh anggota tentera bukan sahaja berkesan, malah ianya lebih dari itu kerana anggota tentera sanggup berkorban apa sahaja demi kepentingan negara. Keadaan ini merupakan suatu indikator penting buat kita kerana ianya membuktikan bahawa segala khidmat bakti yang telah dicurahkan selama ini tidaklah disia-siakan begitu sahaja. Sekali lagi, syabas saya ucapkan kepada anda semua!". Ujar beliau lagi.

Menyingkap amanat bagi tahun 2022 ini juga, beliau turut optimis bahawa tahun ini akan menjadi tahun pemulihan buat semua di mana segala usaha untuk memastikan tradisi dan legasi terdahulu dapat diteruskan setelah tergendala akibat ketidaktentuan yang dibawa oleh pandemik COVID-19.

Menjadi keutamaan pertama bagi tahun 2022 ini adalah untuk meneruskan 4 teras sepertimana yang termaktub dalam Perintah Ulung beliau iaitu Memperkasakan Kesiagaan Aset ATM, Memperkasa Warga ATM Yang Cemerlang, Mengukuhkan Keupayaan ATM dalam Domain Siber dan Menterjemahkan Kertas Putih Pertahanan. Teras-teras ini harus dijadikan sebagai panduan strategik dalam merealisasikan hasrat menjadikan Angkatan Tentera Malaysia sebagai sebuah angkatan berspektrum penuh yang holistik dan mampan.

Keutamaan kedua adalah memastikan pengurusan peruntukan kewangan yang diterima dibelanjakan dengan sebijak-bijaknya melalui perbelanjaan yang berhemah agar peruntukan yang diberikan dapat dibelanjakan secara holistik serta berdasarkan keperluan sebenar yang diigini.

Keutamaan ketiga yang ditekankan adalah dokumen Strategi Ketenteraan Negara 2.0 dan 4DMAF dapat dilancarkan pada tahun ini. Kedua-dua dokumen ini haruslah difahami kerana ianya akan menjadi rujukan utama dalam meneruskan agenda pembangunan angkatan sepertimana yang telah dihasratkan di dalam Kertas Putih Pertahanan.

“Dalam menjayakan ketiga-tiga keutamaan ini, kita semua tidak boleh lagi mengamalkan business as usual. Dengan peralihan kepada fasa endemik dan juga ancaman persekitaran geostrategik global dan serantau yang semakin kompleks serta ancaman Bukan Kinetik yang boleh berlaku pada sebilang masa, kita harus bersikap lebih realistik untuk terus bergerak ke hadapan. Cara kita berfikir dan cara kita melihat kepada sesuatu perkara atau keperluan perlu diubah bagi memastikan kehendak situasi semasa dapat dipenuhi” tegas beliau lagi.

Dalam pada itu beliau turut mengaskan kan kepentingan memastikan struktur rantai pemerintahan diperkasa sewajarnya dan di masa yang sama segala Rancangan Kontigensi (RANKON) sedia ada harus diperkemaskini dan difahami agar ATM dapat memberikan respon yang cepat dan tepat apabila keadaan memerlukan. Disamping itu, operasi-operasi kawalan dan pemantauan di sempadan darat dan lautan negara, sama ada yang sedang dilaksanakan oleh perkhidmatan mahupun di bawah koordinasi National Task Force wajar diberikan keutamaan berterusan.

Di akhir penyampaian amanat, beliau menyatakan agar semua peringkat dapat bermuhasabah diri dalam setiap perkara yang telah dilakukan sepanjang tahun 2021 yang lalu agar dapat meneruskan tahun 2022 ini dengan lebih baik di samping menunaikan tanggungjawab menjaga hubungan dengan Sang Pencipta (Hablum Min Allah) dan juga hubungan sesama manusia (Hablum Minan Nas) pada setiap masa.

ON THE FRONT LINES, MALAYSIAN ARMED FORCES REMAIN STRONG AS NATIONAL DEFENCE

KUALA LUMPUR, January 24, 2022 - The Chief of the Malaysian Armed Forces, General Tan Sri Dato' Sri Hj. Affendi bin Buang RMAF delivered the New Year Mandate 2022 at the Defence Ministry Auditorium, here today.

In his speech, he highlighted key points pertaining to the 2021 summaries and the priorities set for the year 2022, which were broadcast to all Malaysian Armed Forces formations.

Throughout 2021, MAF has planned every measure to combat COVID-19, and major efforts are reflected in the setting up of field hospitals to support the national health system, which was on the verge of collapse, as well as administering the national vaccination programme to fulfil Malaysia's National Recovery Council. Also, in the year 2021, MAF demonstrated a high

degree of alertness by responding quickly to rescue people during the recent flood disaster. Their efforts continued by assisting flood victims with their post-flood cleaning, as well as repairing some severely damaged houses.

“All of these are our joint efforts. Everyone has played a vital part in ensuring that the Military Operation Other Than War (MOOTW) is carried out efficiently and effectively,” he said.

Despite the focus on fulfilling these secondary tasks, the MAF continues its primary task of ensuring our national security and sovereignty are protected from any threats, as well as developing plans for military enhancement in order to produce a balanced force of our soldiers. This included the addition of military assets in the MAF 2021 inventory, which were acquired on an orderly and phased basis in order to fully optimise the limited financial allocation available each year.

In 2021, the MAF also prioritised the welfare of its members, especially in an effort to ensure that every MAF personnel is prepared for life after retirement. The Department of Veterans Affairs (JHEV) is also paying attention to MAF veterans, with several new initiatives being implemented which aimed at improving their quality of life.

He also mentioned the accomplishments made in 2021 and how people are now having a greater sense of confidence in the MAF's capabilities. They believe that the military's services are not only effective but know how willing the troops are to put their lives on the line for their nation. This situation is a significant indicator because it proves that all of the services delivered thus far have not been squandered. "Once again, congratulations to everyone!" He said again.

In presenting the 2022 mandate, he is optimistic that this year will be the year of recovery, with all efforts focused on ensuring that traditions and legacies may continue after being affected by the COVID-19 uncertainties.

In keeping with tradition, the main objective for 2022 is to maintain the four main thrusts outlined in his superior order, namely: amplifying the preparedness and alertness of MAF assets; empowering MAF personnel; enhancing MAF cyber capabilities; and implementing the Defence White Paper. The said thrusts should serve as strategic guides in order to develop a holistic and full-spectrum defence force.

The next priority is to ensure that the capital allocation received is managed properly and prudently so that the allocation may be spent in accordance with the actual needs and priorities.

Besides that, the third priority is to launch the National Military Strategy 2.0 document and 4DMAF. Both of these documents should be thoroughly understood since they will be the primary references in implementing the force development strategy outlined in the Defence White Paper.

KEMENTERIAN PERTAHANAN

MALAYSIA

BERITA PORTAL RASMI KEMENTERIAN PERTAHANAN

To achieve these three priorities, we need to change our usual practice. With the transition to the endemic phase and the more complex challenges of the regional and global geostrategic situation, as well as non-kinetic threats that may occur at any time, we must be more realistic to keep moving forward. "We need to reconstruct our thinking and perceptions towards certain things and wants in order to meet the demands of the current circumstances," he emphasised.

In addition, he emphasised the significance of ensuring the governance structure is enhanced accordingly, along with updating and comprehending the Contingency Plans (RANKON) to ensure that the MAF can rapidly and effectively respond when the needs come. Also, control and monitoring operations along our land and sea borders should continue to be prioritised, which are either conducted by the responsible force or under the guidance of the National Task Force.

He concluded his speech by reminding all parties to reflect on all that has been accomplished in 2021 in order to strive for excellence in 2022, as well as to fulfil our responsibility in maintaining our relationship with the Creator (Hablum MinAllah) and with one another (Hablum MinanNas) at all times.

Memulakan hari kedua lawatan kerja beliau pada 21 Februari 2022, Panglima Angkatan Tentera telah disambut dengan penghormatan ketenteraan ketika membuat kunjungan hormat kepada Timbalan Ketua Misi (Deputy Head of Mission) UNIFIL, Mr. Jack Christofides yang turut disertai oleh Timbalan Komander (Deputy Force Commander) UNIFIL, Brigedier Jeneral Irvine Nii-Ayitey Aryeetey di Markas UNIFIL, Naqoura.

Pertemuan Panglima Angkatan Tentera dengan kedua-dua pucuk pimpinan UNIFIL berkenaan merupakan agenda utama dalam menyatakan komitmen Malaysia dan Angkatan Tentera Malaysia (ATM) khususnya dalam misi pengaman tersebut, seterusnya berupaya memperkukuhkan keyakinan antarabangsa sejak Malaysia terlibat menghantar anggota ATM ke Lubnan bermula tahun 2007 yang kemudiannya turut disertai secara bersama oleh

beberapa pegawai serta anggota daripada Angkatan Bersenjata Diraja Brunei (ABDB) pada tahun 2008.

Bermula detik itu, Malaysia dan ATM khususnya terus diberi kepercayaan untuk kekal terlibat dalam misi pengaman di negara berkenaan yang bukan sahaja menyerlahkan kemampuan anggota ATM, malah turut membuktikan kredibiliti, kewibawaan dan kecemerlangan ATM itu sendiri di peringkat antarabangsa.

Bagi memperkasakan kerjasama pertahanan antara angkatan tentera kedua-dua buah negara, Jeneral Tan Sri Dato' Sri Hj Affendi turut mengadakan kunjungan hormat kepada Panglima Angkatan Tentera Lubnan (Lebanese Armed Forces Commander), Jeneral Joseph Khalil Aoun di Kementerian Pertahanan Lubnan di Beirut.

Pengekalan dan pemerksaan kerjasama pertahanan ini amat penting bagi meningkatkan kesefahaman dan menyatakan komitmen angkatan tentera kedua-dua buah negara, tambahan ATM melalui kontinjen MALBATT mengawalselia kawasan tanggungjawab seluas 288 km persegi serta memantau keselamatan di 48 buah perbandaran (municipalities) di bawah kawalan operasi Markas Sektor Barat, UNIFIL.

Pengekalan kesefahaman dan keyakinan Lubnan khususnya angkatan tentera negara berkenaan terhadap ATM juga merupakan suatu pengiktirafan dan penghargaan lebih-lebih lagi kontinjen MALBATT amat komited melaksanakan pelbagai aktiviti operasi secara berkala bersama Angkatan Tentera Lubnan di bawah pengoperasian Independent and Coordinated Activity With Lebanese Armed Forces (COAWL).

Ini membuktikan komitmen padu ATM dan tidak ketinggalan Kerajaan Brunei melalui penyertaan ABDB di dalam pasukan MALBATT terhadap usaha mewujudkan keamanan sejagat di peringkat antarabangsa yang seterusnya berupaya menambat hati rakyat Lubnan berdasarkan konsep winning the heart and mind melalui pelaksanaan program seperti Key Leaders Engagement, Combined Outreach Program, Program Khidmat Sosial dan program-program Civil Military Cooperation (CIMIC) termasuklah menyediakan rawatan perubatan dan pergigian percuma serta membantu menaiktaraf kemudahan awam dan sekolah komuniti setempat.

Mengakhiri sesi kunjungan hormat, Panglima Angkatan Tentera turut ke Kedutaan Malaysia di Beirut bagi mengadakan pertemuan dengan Duta Besar Malaysia ke Lubnan iaitu Tuan Yang Terutama (TYT) Azri Mat Yacob.

Pertemuan ini merupakan antara inisiatif memperkasakan hubungan ATM dan Kedutaan dalam aspek perkongsian pandangan bagi usaha meningkatkan hubungan dua hala antara Malaysia-Lubnan melalui penglibatan dan peranan MALBATT dalam misi pengaman di negara berkenaan.

Sesungguhnya, penglibatan ATM dan ABDB melalui kontinjen MALBATT akan terus meletakkan ATM khususnya sebaris dengan angkatan tentera luar yang turut beroperasi di bawah misi pengaman UNIFIL terutamanya di sektor barat Lubnan. Ia sekaligus membuktikan pengiktirafan berterusan Pertubuhan Bangsa-Bangsa Bersatu (PBB) terhadap ATM serta menunjukkan keupayaan ATM dalam melaksanakan misi-misi pengaman di peringkat antarabangsa.

BERITA PORTAL RASMI KEMENTERIAN PERTAHANAN

Since then, Malaysia and, in particular, the Malaysian Armed Forces (MAF), have been entrusted with the responsibility of participating in peacekeeping operations in the nation. It draws attention to not just the qualities of the MAF members, but also their credibility, authority, and competence on a global scale.

As part of efforts to further strengthen defence cooperation between the two nations' armed forces, General Tan Sri Dato' Sri Hj Affendi made a courtesy call on General Joseph Khalil Aoun, Commander of the Lebanese Armed Forces, at the Ministry of National Defence in Beirut.

It is important to maintain and develop defence cooperation in order to promote mutual understanding and demonstrate continuous commitment between both parties. Besides, the MAF, through the MALBATT contingent, is responsible for a 288-square-kilometer area of responsibility and security in 48 municipalities under the operational direction of the West Sector Headquarters, UNIFIL.

The sustained understanding and confidence of Lebanon, especially the country's armed forces, towards the MAF is definitely a recognition and appreciation. Moreover, the MALBATT contingent is very committed to carrying out various operational activities on a regular basis with the Lebanese Armed Forces under the Independent Operation and Coordinated Activity With Lebanese Armed Forces (COAWL).

It demonstrates the MAF's credible commitment, along with the government of Brunei, by including ABDB in the MALBATT team in an effort to attain global security and peacekeeping on a worldwide scale. In turn, it seeks to win the hearts of the Lebanese people based on the concept of 'winning the heart and mind' via the execution of programmes such as Key Leaders Engagement, Combined Outreach Program, Social Service Programs, and Civil Military Cooperation (CIMIC). They include offering free medical and dental treatment, as well as assisting in the improvement of public infrastructure and community schools.

At the end of the courtesy call, the Chief of the Malaysian Armed Forces visited the Malaysian Embassy in Beirut to hold a meeting with the Malaysian Ambassador to Lebanon, namely Tuan Yang Terutama (TYT) Azri Mat Yacob.

It became one of the initiatives to strengthen the relationship between the MAF and the Embassy in terms of exchanging views on efforts to enhance bilateral ties between Malaysia and Lebanon through MALBATT's involvement and role in security and peacekeeping missions in the nation.

During the courtesy calls, the Chief of the Malaysian Armed Forces was accompanied by the Joint Forces Commander, Lieutenant General Dato' Indera Hj. Yazid bin Hj. Arshad RMAF; Director General of Development Planning, Malaysian Armed Forces Headquarters, Brigadier General Dato' Wan Amin Hafiz bin Wan Mahmud RMAF; and the Commander of MALBATT 850-9, Colonel Megat Maz Ardi bin Nohuddin.

PANGLIMA ANGKATAN TENTERA TINJAU PELAKSANAAN OP BENTENG KHAS 2

KOTA TINGGI, 15 Mac 2022 - Panglima Angkatan Tentera, Jeneral Tan Sri Dato' Sri Haji Affendi bin Buang TUDM hari ini telah membuat lawatan bagi meninjau pelaksanaan OPERASI BENTENG KHAS 2 (OBK2); dikoordinasikan oleh pasukan National Task Force (NTF) yang dilaksanakan selama empat (4) hari berpangkalan di KD Sultan Ismail (KDSI) Tg. Pengelih, Kota Tinggi, Johor.

Turut hadir sama adalah Ketua Pengarah Agensi Penguatkuasaan Maritim Malaysia, Laksamana (M) Dato' Mohd Zubil bin Mat Som, Komander NTF, Laksamana Madya Dato' Aris Adi Tan bin Abdullah Panglima Medan Barat, Tentera Darat Malaysia, Leftenan Jeneral Dato' Muhamad Hafizuddeain bin Jantan, Panglima Armada Barat, Laksamana Madya Datuk Abu Bakar bin Md Ajis dan Panglima Wilayah Udara 1, Mejar Jeneral Dato' Zahani bin Zainal Abidin TUDM dan Ketua Staf Operasi NTF, DCP Dato' Hj. Mohd Yusoff bin Mamat.

OBK2 ini dilaksanakan adalah bertujuan menilai keupayaan dan kecekapan serta kesiagaan aset komponen daratan, maritim dan udara, di samping mempraktikkan Perintah, Kawalan dan Komunikasi dalam struktur Op BENTENG sedia ada selain meningkatkan situational awareness dan land and maritime domain awareness agensi-agensinya yang terlibat.

OBK2 juga merupakan salah satu usaha untuk penambahbaikan Prosedur Tetap Operasi (PTO) NTF setiap komponen berdasarkan penilaian terhadap sebarang tindakan yang dilaksanakan di lapangan.

Seiring dengan objektif membanteras kemasukan PATI bagi mengekang penularan COVID-19 dan jenayah rentas sempadan di Negeri Johor, OBK2 yang dilaksanakan di Sektor 8 dan pesisir pantai negeri Johor mulai 13 hingga 16 Mac 2022 dengan penglibatan 18 agensi di bawah NTF ini adalah berikutan statistik pembolosan PATI yang tinggi serta kawasan tersebut kekal sebagai hotspot di Paksi Ancaman 3 Op BENTENG.

Penglibatan 18 agensi di bawah NTF dalam OBK ini adalah terdiri daripada ATM melibatkan aturgerak pasukan dari TDM, TLDM dan TUDM, Polis Diraja Malaysia melibatkan Pasukan Gerakan Am (PGA), Pasukan Gerakan Udara (PGU) dan Pasukan Polis Marin (PPM), Agensi Penguatkuasaan Malaysia (APMM), Jabatan Imigresen Malaysia (JIM), Kementerian Kesihatan Malaysia (KKM) dan lain-lain agensi. Semua agensi yang terlibat akan melaksanakan rondaan dan memperagakan kehadiran serta menguatkuasakan undang-undang di kawasan perairan dan pesisir pantai Negeri Johor.

Johor merupakan negeri kedua tertinggi bagi kes kemasukan Pendatang Asing Tanpa Izin (PATI) Indonesia khususnya dari Pulau Bintan dan Pulau Batam yang merupakan exit point sebagai lokasi permulaan untuk masuk ke Malaysia. Kawasan Pantai Timur Johor dari Bandar Penawar sehingga ke Tanjung Sedili adalah kawasan yang aktif dengan aktiviti pendaratan PATI.

Kawasan pesisir pantai yang landai dan jauh daripada penempatan penduduk memberi kelebihan kepada penyeludup untuk menyusup masuk dan mendaratkan PATI. Mengikut analisis semasa, ancaman yang terdapat di Paksi 3 bukan sahaja melibatkan aktiviti penyeludupan PATI, malah kegiatan penyeludupan barang kawalan seperti rokok, minuman keras dan barang terlarang termasuk dadah, turut aktif di Selatan Semenanjung.

Berdasarkan statistik kes di Johor mulai Mei 2020 sehingga 10 Mac 22, sebanyak 1,074 kes telah dilaporkan merangkumi 928 kes tangkapan, 111 kes penglihatan, empat (4) kes pengusiran, 30 kes rampasan barang tanpa tangkapan dan satu (1) kes melibatkan rompakan laut. Anggaran keseluruhan nilai rampasan adalah berjumlah RM175 juta.

Dalam tempoh kajian ini juga, seramai 4,278 orang PATI telah ditangkap, yang mana daripada jumlah tersebut seramai 3,476 PATI merupakan warganegara Indonesia, 165 orang warganegara Bangladesh, 163 orang warganegara Myanmar, 151 orang warganegara Vietnam, dua (2) orang etnik Rohingya dan 321 orang daripada lain-lain negara.

KOTA TINGGI, March 15, 2022 – The Malaysian Armed Forces Chief, General Tan Sri Dato' Sri Haji Affendi bin Buang RMAF, made a visit to inspect the implementation of OPERASI BENTENG KHAS 2 (OBK2)

coordinated by the National Task Force (NTF) and conducted for four (4) days at KD Sultan Ismail (KDSI) Tg. Pengelih, Kota Tinggi, Johor.

Also present were the Director General of the Malaysian Maritime Enforcement Agency, Admiral (M) Dato' Mohd Zubil bin Mat Som; NTF Commander, Vice Admiral Dato' Aris Adi Tan bin Abdullah; Malaysian Army Western Field Commander, Lieutenant General Dato' Muhamad Hafizuddeain bin Jantan; Western Fleet Commander, Vice Admiral Datuk Abu Bakar bin Md Ajis, and Air Region 1 Commander, Major General Dato' Zahani bin Zainal Abidin RMAF and NTF Operations Staff Chief, DCP Dato' Hj. Mohd Yusoff bin Mamat.

This operation is implemented in order to assess the capability, efficiency, and readiness of land, maritime, and air component assets, as well as to practise Command, Control, and Communication under the existing OP BENTENG structures. Also, it functions to enhance situational awareness as well as land and maritime awareness among the agencies involved.

OBK2 is also one of the initiatives to improve "NTF Prosedur Tetap Operasi (PTO)" of each component based on the evaluation of any actions taken in the field.

Due to the high statistics of illegal immigrants and the area remaining a hotspot in Paksi Ancaman 3 Op BENTENG, OBK2 was implemented in Sector 8 and the coastal state of Johor from 13 to 16 March 2022 with the involvement of 18 agencies under the NTF, with the goal of combating the entry of illegal immigrants to curb the spread of COVID-19 and cross-border crime.

MAF involving personnel from Malaysian Army, RMN, and RMAF while Royal Malaysia Police consisting of General Operations Force (PGA), Royal Malaysia Police Air Operation Force (PGU), and Marine Police Force (PPM), Enforcement Agency Malaysia (APMM), Malaysian Immigration Department (JIM), Ministry of Health Malaysia (MOH), and other agencies are among the 18 agencies involved in this OBK. All authorities engaged will be on the ground, conducting patrols and enforcing the law throughout the waterways and coastal regions of the state of Johor.

Johor is the state with the second highest number of Indonesian Illegal Immigrant (PATI) entries, particularly from Bintan Island and Batam Island, which serve as entry points into Malaysia. The east coast of Johor, from Bandar Penawar to Tanjung Sedili, is a hotspot for illegal entry activities.

Immigrant smugglers have an edge in smuggling due to the coastal slope areas and their distance from communities. Besides illegal immigration, the smuggling of controlled goods such as cigarettes, liquor, and illicit goods like drugs, which are also active in the southern part of the peninsula, has been identified as a concern in Paksi 3.

According to statistics in Johor, a total of 1,074 cases were recorded from May 2020 to March 10, 22, comprising 928 arrests, 111 sighting cases, four (4) deportation cases, thirty (30) seizure cases without arrest, and one (1) case involving maritime robbery. The seizure is expected to be worth RM175 million in total.

During the research period, 4,278 illegal immigrants were arrested, including 3,476 Indonesians, 165 Bangladeshis, 163 Myanmarese, 151 Vietnamese, two (2) Rohingya ethnic people, and 321 individuals from other countries.

Prior to concluding the visit at the OBK2 Operations Centre, KDSI, the Malaysian Armed Forces Chief was taken to MK Taktikal Pos Tg. Sepang to review the area of OP MERPATI 1 under the supervision of 7 Bgd operations, which also commands 22 observation posts along the coast from Endau Rompin to Kg Panchur. Also, the OP BENTENG KHAS, which involves the detention of illegal immigrants at Tg Penyusup, was demonstrated to him before he proceeded to Abu Bakar Maritime Base (ABMB), Batu Tengah, to see the base's maritime control operations.

TELUK SEPANGGAR, May 27, 2022 – The Secretary General of Defence Ministry, Dato' Sri Muez bin Abd Aziz, and the Chief of Defence Forces, General Tan Sri Dato' Sri Hj Affendi bin Buang RMAF, surveyed the site for the proposed construction of the Armed Forces Family Home (RKAT), which is being constructed for the Royal Malaysian Navy (RMN) personnel serving at the Kota Kinabalu RMN Base (PTKK).

The increase in the number of RMN personnel serving in PTKK has resulted in a decrease in the number of members' residences. Hence, the Ministry of Defence has made it a priority to ensure that every RMN personnel has a decent home to live in with their families.

The new RKAT project proposed here comprises seven building blocks with 1036 housing units of various classes, mosque, nursery, and a multi-purpose hall with recreational amenities like gymnasium, jogging track, futsal court, and a playground.

TUDM LAKSANA MISI PENGHANTARAN BARANGAN MAKANAN DAN KEPERLUAN ASAS

SABAH, 13 Jun 2022 - Kementerian Pertahanan melalui Tentera Udara Diraja Malaysia (TUDM) hari ini telah membantu pihak Kementerian Kerja Raya Malaysia bagi melaksanakan misi penghantaran barangan makanan dan keperluan asas ke kawasan yang terjejas untuk laluan jalan darat.

Misi ini melibatkan penghantaran barang makanan kepada pelajar-pelajar di Sekolah Kebangsaan Pengaraan, Nabawan Sabah yang diketuai oleh YB Datuk Arthur Joseph Kurup, Timbalan Menteri Kerja Raya. Misi ini turut disertai Pegawai Daerah Nabawan, En Peter Jonu Moinjil, Panglima Wilayah Udara 2, Mejar Jeneral Dato' Hj Shamsudin bin Kassim TUDM dan AKS A1, Lt Kol Mohd Irwan bin Asmail TUDM.

Kampung Pengaraan, Nabawan terletak di bawah pentadbiran Pejabat Daerah Nabawan, Sabah, Jarak kampung ini dengan bandar terdekat iaitu Keningau adalah sejauh km.

Pada Mac 2022, kawasan Mukim Tatalaan, Nabawan telah dinaiki air dan dilanda banjir yang mengakibatkan infrastruktur dan fasiliti awam seperti jalan kampung, jambatan kereta dan jambatan gantung mengalami kerosakan. Kawasan yang terjejas adalah sebanyak tujuh (7) buah kampung dengan jumlah penduduk dianggarkan seramai 5, 000 orang serta empat (4) buah sekolah.

Kejadian bencana alam ini menyebabkan penduduk terputus hubungan jalan darat dan sukar dilalui oleh semua jenis kenderaan. Sebagai langkah jangka panjang, kerajaan telah meluluskan peruntukan untuk pembinaan jambatan dan penyelenggaraan jalan namun ianya mengambil masa untuk disiapkan memandangkan jarak serta kawasan yang terpencil dan sukar dilalui.

Berikutan memahami situasi kesulitan yang dialami oleh rakyat iaitu tidak dapat keluar ke bandar untuk membeli keperluan harian, pelajar-pelajar tidak dapat ke sekolah untuk meneruskan pembelajaran, terdapat warga pendidik terpaksa berjalan kaki sejauh 18 jam bagi menghantar bahan pengajaran untuk mengelakkan mereka tertinggal di dalam pelajaran malah jalan alternatif iaitu bot untuk merentasi sungai turut mendatangkan risiko bahaya ke atas keselamatan nyawa, Menteri Kanan Pertahanan, YB Dato' Seri Hishammuddin Tun Hussein melalui perbincangan bersama Timbalan Menteri Kerja Raya, YB Datuk Arthur Joseph Kurup meminta TUDM membantu usaha murni membantu rakyat yang terjejas dan terputus bekalan keperluan utama sehingga masalah tersebut dapat diatasi sepenuhnya.

TUDM seterusnya telah mengatur gerak dua (2) buah helikopter EC 725 AP dari No 5 Skuadron melaksanakan misi tersebut yang membawa barang keperluan asas makanan berupa beras, minyak masak, tepung, gula, susu, ayam, daging, ikan, sardin, biskut, peralatan asas memasak serta pelbagai barangan dapur basah dan kering dengan berat anggaran 1.35 tan (2,984 lbs) berlepas dari Pangkalan Udara Labuan dan mendarat di padang Sekolah Kebangsaan Pengaraan.

Misi bermula jam 8.00 pagi dan selesai sepenuhnya pada waktu petang. Penerbangan helikopter pertama telah dikendalikan oleh Komander Pesawat, Mejar Khairul Safarin bin Abu Johan TUDM dibantu oleh Pembantu Juruterbang, Kapten Muhamad Fikry Haziq bin Mohamad Razuan TUDM, serta Kuartermaster Udara, Pegawai Waran Udara II Azrin bin Mohamad@Johor dan Flait Sarjan Gering Anak Edward.

Manakala penerbangan helikopter kedua dikendalikan oleh Komander Pesawat, Mejar Adi Imran bin Johany TUDM dibantu oleh Pembantu Juruterbang, Kapten Shamie Hazim bin Samsu TUDM, dan Kuatermaster Udara, Sarjan Udara Muhamad Hafizudin bin Zainal. Misi ini juga disertai oleh empat (4) orang anggota kejuruteraan dan pelaksanaan penghantaran bekalan makanan yang diambil di tempat pengumpulan barang bantuan di Airstrip Keningau sebelum diterbangkan Kampung Pengaraan, Nabawan.

Semoga aspirasi "Keluarga Malaysia" khususnya demi kesejahteraan rakyat sentiasa diteruskan dari semasa ke semasa dengan komitmen dan usaha bersepadu semua pihak yang terlibat.

JOINT EFFORTS OF THE DEFENCE MINISTRY AND WORKS MINISTRY IN DELIVERING ESSENTIAL GOODS TO AREAS WITH IMPASSABLE ROADS

SABAH, June 13, 2022 – The Ministry of Defence, through the Royal Malaysian Air Force (RMAF), assisted the Ministry of Works Malaysia today in carrying out a mission to deliver food and basic essentials to affected areas owing to the disrupted route.

Today's mission involved the distribution of food supplies to students at Sekolah Kebangsaan Pengaraan, Nabawan Sabah, led by Datuk Arthur Joseph Kurup, Deputy Minister of Works. It was also joined by Nabawan District Officer, Mr. Peter Jonu Moinjil; Air Region 2 Commander, Major General Dato' Hj Shamsudin bin Kassim RMAF; AKS A1, Lt Col Mohd Irwan bin Asmail RMAF.

Kampung Pengaraan, Nabawan is under the administration of the Nabawan District Office, Sabah. This village lies a few kilometres from the nearest town, Keningau.

Mukim Tatalaan, Nabawan was inundated in March 2022, resulting in damage to infrastructure and public facilities such as roads, vehicle bridges, and suspension bridges. Seven (7) areas with an estimated population of 5,000 people and four (4) schools are impacted.

Due to this natural disaster, residents were stranded, and several routes were inaccessible to all sorts of vehicles. As a long-term measure, the government has allocated funds for bridge construction and road maintenance. However, it will take time owing to its distance, remoteness, and inaccessible areas.

Following the present challenging situation that prevents people from travelling to the city to purchase their daily essentials and students from attending school, some educators opted to walk for 18 hours to provide the teaching materials. This was done so that the children would not be left behind in school. In addition, the alternative routes, such as crossing the river by boat, also pose a risk to one's life. Therefore, the Senior Minister of Defence, Dato' Seri Hishammuddin Tun Hussein, through a discussion with the deputy minister of works, Datuk Arthur Joseph Kurup, deployed the Royal Malaysian Air Force (RMAF) to assist the affected population until this issue can be fully resolved.

The RMAF then coordinated the deployment of two (2) EC 725 AP helicopters from No. 5 Squadron to carry out the mission. These helicopters carried common cooking staples such as rice, cooking oil, flour, sugar, milk, chicken, meat, fish, sardines, biscuits, basic cooking equipment, as well as various wet and dry food items weighing an estimated 1.35 tonnes (2,984 lbs). They took off from Labuan Air Base and landed at Sekolah Kebangsaan Pengaraan.

The mission begins at 8:00 a.m. and concludes in the afternoon. The first helicopter was piloted by the Aircraft Commander, Major Khairul Safarin bin Abu Johan RMAF; assisted by the Assistant Pilot, Captain Muhamad Fikry Haziq bin Mohamad Razuan RMAF; as well as the Air Quartermaster, Air Warrant Officer Class II Azrin bin Mohamad@Johor; and Fleet Sergeant Gering Anak Edward.

The second helicopter was operated by Major Adi Imran bin Johany RMAF, assisted by Assistant Pilot Captain Shamie Hazim bin Samsu RMAF and Air Quartermaster Air Sergeant Muhamad Hafizudin bin Zainal, along with four (4) engineers. This mission started with collecting the relief items centred at the collection point at Keningau Airstrip before proceeding to Kampung Pengaraan, Nabawan.

It is hoped that the "Malaysian Family" aspiration, which focuses on the well-being of the people, will continue to be regularly carried out with the full commitment and joint efforts of all parties concerned.

SUBANG, June 18, 2022 – The Royal Malaysian Air Force (RMAF) today carried out a Cloud Seeding Operation (CSO) in the catchment area of Bukit Merah Dam in Semanggol, Kerian District, Perak. This CSO is a joint effort of the Ministry of Agriculture and Food Industries (MAFI), the Malaysian Meteorological Department (MET Malaysia), the National Disaster Management Agency (NADMA), and the Royal Malaysian Air Force (RMAF).

He attended an operational briefing by the Malaysian Meteorological Department (MET Malaysia), accompanied by Colonel Yusri bin Jamari RMAF, Subang Air Base Executive Officer.

Also, the Commanding Officer of No. 2 Squadron, Lieutenant Colonel Faizul Hussien bin Dato' Ismail RMAF, who operated the C130H aircraft for the CSO mission today, briefed him on flying and safety issues as well.

MESYUARAT PENYELARASAN DAN HALA TUJU DASAR INDUSTRI PERTAHANAN DAN KESELAMATAN NEGARA

KUALA LUMPUR, 24 Ogos 2022 – Mesyuarat Penyelarasan dan Hala Tuju Dasar Industri Pertahanan dan Keselamatan Negara (DIPKN) yang dipengerusikan secara bersama oleh Ketua Setiausaha Kementerian Pertahanan YBhg. Dato' Sri Muez Abd Aziz dan Ketua Setiausaha Kementerian Dalam Negeri, YBhg. Dato' Sri Wan Ahmad Dahlan Haji Abdul Aziz di Bilik Mesyuarat Bunga Raya Wisma Pertahanan.

Mesyuarat dimaklumkan mengenai DIPKN yang telah disusun mengikut kluster agar lebih fokus dan tersusun dengan mengetengahkan elemen Game Changer yang akan menyokong teras-teras DIPKN dalam merencanakan ekosistem industri pertahanan negara agar sejajar dengan kehendak dan aspirasi Kertas Putih Pertahanan sehingga tahun 2030.

Salah satu inisiatif yang diketengahkan dalam DIPKN adalah cadangan membangunkan 'Special Economy Zone' untuk pertahanan dan keselamatan seperti Defence Cities bagi menarik pelabur-pelabur asing melalui faedah serta insentif tertentu; serta dalam masa yang sama mewujudkan pemusatan kepada pelabur-pelabur tempatan. Negeri yang dikenalpasti antaranya adalah di Pahang, Selangor dan Perak.

DIPKN juga mengetengahkan elemen Game Changer iaitu meyakinkan Kerajaan dan agensi pusat agar dapat memperuntukkan 1.5% daripada KDNK secara konsisten untuk sektor pertahanan dan keselamatan. Hal ini disebabkan pembiayaan pertahanan yang stabil adalah sangat penting dalam usaha meningkatkan kesiapsiagaan ATM serta membantu perancangan pelaburan yang berterusan dan mampan untuk pembangunan keupayaan ATM dan industri pertahanan dalam tempoh jangka panjang.

MINDEF dan KDN bersetuju untuk bekerjasama membangunkan DIPKN dan melancarkan DIPKN pada penghujung Oktober 2022.

THE DEFENCE INDUSTRY AND NATIONAL SECURITY POLICY COORDINATION AND DIRECTION MEETING

KUALA LUMPUR, August 24 2022 - The Defence Industry and National Security Policy (DIPKN) Coordination and Direction Meeting jointly chaired by the Secretary General Ministry of Defence YBhg. Dato' Sri Muez Abd Aziz and Secretary General Ministry of Home Affairs, YBhg. Dato' Sri Wan Ahmad Dahlan Haji Abdul Aziz at Bunga Raya Meeting Room, Wisma Pertahanan.

The meeting was informed about DIPKN which has been arranged according to clusters to be more focused and organized by highlighting the Game Changer elements that will support the core of DIPKN in planning the national defence industry ecosystem to be aligned with the will and aspirations of the Defence White Paper until 2030.

One of the initiatives highlighted in DIPKN is the proposal to develop a 'Special Economy Zone' for defence and security such as Defence Cities to attract foreign investors through certain benefits and incentives; and at the same time creating centralization for local investors. The identified states include Pahang, Selangor and Perak.

DIPKN also highlighted the Game Changer element which is to convince the Government and central agencies to allocate 1.5% of GDP consistently for the defence and security sector. This is because stable defence funding is very important in efforts to improve MAF preparedness as well as assist in continuous and sustainable investment planning of MAF's and the defence industry capability developments in the long term span.

MINDEF and MOHA agreed to work together to develop DIPKN and launch DIPKN at the end of October 2022.
